Maybe God isn't who you think He is. Maybe He's much better. Pastor and speaker Shane Pruitt guides readers in identifying the Christian cliches we've all heard that are actually unbiblical lies. He then counters with the truths about God as presented in the Bible, truths that bring encouragement and freedom for our lives. God won't give you more than you can handle. Really? Pastor and speaker Shane Pruitt shines a light on this and other Christian cliches that upon further inspection are actually unbiblical lies that keep far too many believers stuck in spiritual immaturity.

"As long as we can make our payments, we're okay...aren't we? To answer this and other provocative questions relating to your money, financial expert Russ Crosson teams up with gifted communicator Kelly Talamo to expose the common lies people believe about money. Through the use of everyday stories about men and women wrestling with financial decisions just like the ones we all make, Russ and Kelly refute these lies by revealing what the Bible says is the truth about money. Included are subtle lies that permeate our culture: we can't afford to give to our church or charity; what we do with our money is our own business; the more we have, the happier we'll be; my talents and abilities have produced my wealth; I can get rich quick." -- BOOK JACKET.

Why do you believe what you believe? You've been lied to. Probably a lot. We're always stunned when we realize we've been deceived. We can't believe we were fooled: What was I thinking? How could I have believed that? We always wonder why we believed the lie. But have you ever wondered why you believe the truth? People tell you the truth all the time, and you believe them; and if, at some later point, you're confronted with evidence that the story you believed was indeed true, you never wonder why you believed it in the first place. In this incisive and insightful taxonomy of lies and liars, New York Times bestselling author Aja Raden makes the surprising claim that maybe you should. Buttressed by history, psychology, and science, *The Truth About Lies* is both an eye-opening primer on con-artistry—from pyramid schemes to shell games, forgery to hoaxes—and also a telescopic view of society through the mechanics of belief: why we lie, why we believe, and how, if at all, the acts differ. Through wild tales of cons and marks, Raden examines not only how lies actually work, but also why they work, from the evolutionary function of deception to what it reveals about our own. In her previous book, *Stoned*, Raden asked, "What makes a thing valuable?" In *The Truth About Lies*, she asks "What makes a thing real?" With cutting wit and a deft touch, Raden untangles the relationship of truth to lie, belief to faith, and deception to propaganda. *The Truth About Lies* will change everything you thought you knew about what you know, and whether you ever really know it.

We are in the midst of a rapidly changing sexual scene. Casual sex between consenting adults scarcely gets a second look, marriage is increasingly viewed as an at-will contract, attitudes toward same-sex relationships have done an about-face, and the family has been redefined in ways that challenge how we effectively minister to those inside and the church. If we as believers value our call to be the salt and light of society, then we must begin to think biblically and strategically about how to engage our sexually volatile culture. *Sex, Lies, and the Truth* aims to help Christians in all walks of life do just that: It addresses the question of how to develop a Christian ethic in an increasingly post-Christian society by becoming biblically informed and culturally conversant with a topic that promises to be one of the foremost challenges the church will face in the coming years.

The #1-rated columnist on the popular conservative website Townhall.com, Kurt Schlichter, is exposing the bipartisan establishment's hatred for everyday Americans.
