antibodies, new effector mechanisms and new diagnostic tests; these have greatly enhanced our understanding of disease aetiology and opened up therapeutic opportunities, but a critical understanding of this fast -developing field is not easy to find. This volume was conceived following a very successful course on neuroimmuno logy in Bergamo in 2000, and was written mainly by clinicians who are active in the laboratory. It will help to keep practising neurologists and neuroimmuno logists abreast of the most recent developments, and to assess new information more

Greg Satell helps you find your way by revealing the four models of innovation: Basic Research, Breakthrough Innovation, Sustaining Innovation, and Disruptive Innovation. One size does not fit all, so he provides a framework—the Innovation Matrix—for discovering which “type” of innovation process best suits the problem you need to solve. It’s about asking the right questions, so that you can apply the right strategies to the problems you need to solve. In the end, you’ll have a crystal clear model for disrupting the marketplace, scaling your efforts to propel your enterprise
