# Offers profiles of the most popular muscle cars from the 1960s and 1970s through the mid-1990s.

The original 1992 Dodge Viper captured lightning in a bottle upon its debut. Combining ground-shaking V-10 American muscle and a refined chassis with true sports car handling, the Viper put America on the world's supercar map. In 2012, Dodge will unveil its new fifth-generation Viper, and this officially Dodge-licensed book will tell the whole story.

Mark is the eldest son of the late Leslie Thomas who wrote The Virgin Soldiers and many other wonderful novels. Mark has always wanted to write a novel himself but due to his dyslexia this has not been possible until now. His story is about one particular GBP10 note. Have you ever looked at one when it's in your hand before you. This novel is about the people and their experiences, some of them life-changing, some of them funny and sexual. whilst they have this remarkable note in their possession!

The Viper stunned Americans by showing that Dodge, whose cars were all front-wheel drive (and mostly powered by four-cylinder engines), could make a raw, brutal, V10-powered car that could run with the best. Team Viper went a step further at Le Mans, proving that an American car could have been sold to the highest bidder, and considers alternative paths the 2013-17 Viper might have taken. This is not just a gushing tribute to the Dodge Viper, the author provides an objective view of the full story, using business, historical, and enthusiast perspectives. The book looks at the business case for each generation, the development stories and their outcomes, and describes some of the issues owners may have to watch out for, particularly in the early models.

Featuring profiles and photos of over 170 passenger cars, minivans, and four-wheel drive vehicles available for 1999, this book includes the latest suggested retail and dealer-invoice prices for all models.

Marvelous, extreme close-up photography provides a child's-eye view of 33 years of Hot Wheels. Features a foreword by Jay Leno.
