A practical learning tool for building a solid understanding of biomedical ultrasound Basics of Biomedical Ultrasound for Engineers is a structured textbook that leads the novice through the field in a clear, step-by-step manner. Based on twenty years of teaching experience, it begins with the most basic definitions of waves, proceeds to ultrasound in fluids and solids, explains the principles of wave attenuation and reflection, then introduces to the reader the principles of focusing devices, ultrasonic transducers, and acoustic fields, and then delves into integrative applications of ultrasound in conventional and advanced medical imaging techniques (including Doppler imaging) and therapeutic ultrasound. Demonstrative medical applications are interleaved within the text and exemplary questions with solutions are provided on every chapter. Readers will come away with the basic toolkit of knowledge they need to successfully use ultrasound in biomedicine and conduct research. Encompasses a wide range of topics within biomedical ultrasound, from attenuation and reflection of waves to the intricacies of focusing devices, transducers, acoustic fields, modern medical imaging techniques, and therapeutics Explains the most common applications of biomedical ultrasound from an engineering point of view Provides need-to-know information in the form of physical and mathematical principles directed at concrete applications Fills in holes in knowledge caused by ever-increasing new applications of ultrasonic imaging and therapy Basics of Biomedical Ultrasound for Engineers is designed for undergraduate and graduate engineering students; academic/research engineers unfamiliar with ultrasound; and physicians and researchers in biomedical disciplines who need an introduction to the field. This book is meant to be " my first book on biomedical ultrasound " for anyone who is interested in the field.

" Thread So Thin by Marie Bostwick is an endearing tale that will please all readers . . . this book is well written and wonderful for a book for the beach or just hanging around the pool. " – Manic Readers New York Times bestselling author Marie Bostwick crafts a timeless tale of friendship, love, and the choices we must make in their name. . . While New Bern, Connecticut, lies under a blanket of snow, the Cobbled Court Quilt Shop remains a

cozy haven for its owner, Evelyn Dixon, and her friends. Evelyn relishes winter's slower pace--besides, internet sales are hopping, thanks to her son Garrett's efforts. In addition to helping out at the shop, Garrett has also been patiently waiting for his girlfriend, Liza, to finish art school in New York City. But as much as Evelyn loves Liza, she wonders if it's a good idea for her son to be so serious, so soon, with a young woman who's just getting ready to spread her wings. . . Liza's wondering the same thing--especially after Garrett rolls out the red carpet for a super-romantic New Year's Eve--complete with marriage proposal. Garrett's the closest thing to perfect she's ever known, but what about her own imperfections? The only happy marriage Liza's ever seen is her Aunt Abigail's, and it took her decades to tie the knot. Soon, Liza is not only struggling with her own fears, but with the mixed reactions of her friends and family. And when she finds herself torn between a rare career opportunity and her love for Garrett, Liza must grasp at the thinnest of threads--and pray it holds. . .

A Counselor ' s Introduction to Neuroscience is a guidebook to neurobiology that is customized for counselors ' unique goals and requirements. Drawing on years of experience, not only in the lab, but in the counselor ' s chair, the authors unravel the complexities of neuroscience and present an easily understood volume that is an essential companion for any counselor who wishes to expand his or her understanding of the human brain, how it works, and how it creates our identities.

When she meets Trae, a drug dealer who makes her wild with desire, Roz takes a detour on her way to becoming a physical therapist by entering into his world, but soon learns the consequences of her actions. By the author of Payback Is a Mutha. Original.

The Handbook of Psychiatric Education and Faculty Development is a comprehensive guide to the current issues and challenges of psychiatric educators, researchers, and administrators. The book's numerous contributors have pooled their collective knowledge to address program administration and career development.

An “ irresistible ” account of a little-known literary salon and creative commune in 1940s Brooklyn (The Washington Post Book World). A San Francisco Chronicle Best Book of the Year February House is the true story of an extraordinary experiment in communal living, one involving young but already iconic writers—and America ' s best-known burlesque performer—in a house at 7 Middagh Street in Brooklyn. It was a fevered yearlong party, fueled by the appetites of youth and a shared sense of urgency to take action as artists in the months before the country entered World War II. In spite of the sheer intensity of life at 7 Middagh, the house was for its residents a creative crucible. Carson McCullers ' s two masterpieces, The Member of the Wedding and The Ballad of the Sad Cafe, were born, bibulously, in Brooklyn. Gypsy Rose Lee, workmanlike by day, party girl by night, wrote her book The G-String Murders in her Middagh Street bedroom. W. H. Auden—who, along with Benjamin Britten, was being excoriated back in England for absenting himself from the war—presided over the house like a peevish auntie, collecting rent money and dispensing romantic advice. And yet all the while, he was composing some of the most important work of his career. Enlivened by primary sources and an unforgettable story, this tale of daily life at the most fertile and improbable live-in salon of the twentieth century comes from the acclaimed author of Inside the Dream Palace: The Life and Times of New York ' s Legendary Chelsea Hotel. “ Brimming with information . . . The personalities she depicts [are] indelibly drawn. ” —Los Angeles Times Book Review “ Magnificent . . . Not to mention funny and raunchy. ” —The Seattle Times

A biographical tale of innocence, love and courage. This book is one of a series of bilingual featuring corresponding text in both English and Japanese printed on opposite pages.
