For over 25 years Rob Siegel has written a monthly column called "The Hack Mechanic" for the BMW Car Club of America's magazine Roundel. In *Memoirs of a Hack Mechanic*, Rob Siegel shares his secrets to buying, fixing, and driving cool cars without risking the kids' tuition money or destroying his marriage. And that's something to brag about considering the dozens of cars, including twenty-five BMW 2002s, that have passed through his garage over the past three decades. With a steady dose of irreverent humor, *Memoirs of a Hack Mechanic* blends car stories, DIY advice,

The 300 SL (W 194) is the first racing car with which Mercedes-Benz renewed its participation in international automobile racing in the postwar period. Top-ranking positions and triumphs, such as at the legendary twenty-four-hour endurance race in Le Mans or the Carrera Panamericana in Mexico, are not a long time in the coming and as early as 1952 secure a place for the Stuttgart-based make in the worldwide motor sports scene. The racing car achieved particular fame for its unusual gull-winged doors, which turn the production sports car 300 SL, introduced in 1954 and directly derived from the W 194, into one of the lasting icons in automobile history. The book provides exhaustive and authentic documentation of the technical development of the W 194 based on extensive research in
