Don't Be Baffled by Your Electrical System--Handle Repairs and Improvements with Ease With clear illustrations and simple explanations, Don Casey shows you exactly how to install wiring . . . make good, safe connections . . . match your battery bank and alternator to your needs . . . troubleshoot problems quickly . . . avoid shore power problems . . . and more--all without a lot of technical jargon. "Don Casey's book provides clear guidance on how to create and maintain a robust electrical system. Don's lucid explanations and numerous illustrations make what is normally mysterious and invisible--electricity--into something the reader is able to understand with confidence. An excellent addition to the sailor's seagoing library." --Chuck Hawley

More and more sailors and powerboaters are buying and relying on electronic and electric devices aboard their boats, but few are aware of proper installation procedures or how to safely troubleshoot these devices if they go on the blink.

THE NEW YORK TIMES BESTSELLER A brilliant, soulful, and timely portrait of a two-hundred-year-old crabbing community in the middle of the Chesapeake Bay as it faces extinction. A BEST BOOK OF THE YEAR: Washington Post, NPR, Outside, Smithsonian, Bloomberg, Science Friday, Christian Science Monitor, Chicago Review of Books, and Kirkus "BEAUTIFUL, HAUNTING AND TRUE." — Hampton Sides • "GORGEOUS. A TRULY REMARKABLE BOOK." — Beth Macy • "GRIPPING. FANTASTIC." — Outside • "CAPTIVATING." — Washington Post • "POWERFUL." — Bill McKibben • "VIVID. HARROWING AND MOVING." — Science • "A MASTERFUL NARRATIVE." — Christian Science Monitor • "THE BEST NONFICTION BOOK OF THE YEAR." — Stephen L. Carter/Bloomberg Tangier Island, Virginia, is a community unique on the American landscape. Mapped by John Smith in 1608, settled during the American Revolution, the tiny sliver of mud is home to 470 hardy people who live an isolated and challenging existence, with one foot in the 21st century and another in times long passed. They are separated from their countrymen by the nation ' s largest estuary, and a twelve-mile boat trip across often tempestuous water—the same water that for generations has made Tangier ' s fleet of small fishing boats a chief source for the rightly prized Chesapeake Bay blue crab, and has lent the island its claim to fame as the softshell

crab capital of the world. Yet for all of its long history, and despite its tenacity, Tangier is disappearing. The very water that has long sustained it is erasing the island day by day, wave by wave. It has lost two-thirds of its land since 1850, and still its shoreline retreats by fifteen feet a year—meaning this storied place will likely succumb first among U.S. towns to the effects of climate change. Experts reckon that, barring heroic intervention by the federal government, islanders could be forced to abandon their home within twenty-five years. Meanwhile, the graves of their forebears are being sprung open by encroaching tides, and the conservative and deeply religious Tangiermen ponder the end times. Chesapeake Requiem is an intimate look at the island ' s past, present and tenuous future, by an acclaimed journalist who spent much of the past two years living among Tangier ' s people, crabbing and oystering with its watermen, and observing its long traditions and odd ways. What emerges is the poignant tale of a world that has, quite nearly, gone by—and a leading-edge report on the coming fate of countless coastal communities.

Comprehensive troubleshooting guide for most outboard marine engines. Includes detailed diagnostic tips, DVA measurements, engine specific test data, and much more.
