This book represents a major new statement on the issue of property rights. It argues for the justification of some rights of private property while showing why unequal distributions of private property are indefensible. Three features of the book are especially salient: it offers a challenging new pluralist theory of justification; the argument

This book surveys the leading modern theories of property - Lockean, libertarian, utilitarian/law-and-economics, personhood, Kantian and human flourishing - and then applies those theories to concrete contexts in which property issues have been especially controversial. These include redistribution,

property be justified? What core values should property law advance, and how do those values interrelate? How is a liberal state obligated to act when shaping property law? In a liberal polity, the primary commitment to individual autonomy dominates the justification of property, founding it on three pillars: carefully delineated private

authority, structural (but not value) pluralism, and relational justice. A genuinely liberal property law meets the legitimacy challenge confronting property by expanding people's opportunities for individual and collective self-determination while carefully restricting their options of interpersonal domination. The book shows

possessions, as well as the kinds of common ownership we each have in our local streets, as well as many more. However, theories of property and justice have not given anything approaching an adequate account of the relationship between liberty and any other form of property other than private ownership. It is often thought that a basic
