After the Berlin Wall came down, East and West Germany reunified into a single German state on October 3, 1990. View Article Sources Harrison, Hope M. Driving the Soviets up the Wall: Soviet-East German Relations, 1953-1961 .

On 7 May 1945, Grand Admiral Donitz, named in Hitler's will as head of state, authorised the unconditional surrender of all German forces to the Allies on the following day. World War II in Europe was at an end. But many of the German people would continue to endure hardships, as both the country and the capital were to be divided between France, the UK and the USA in the west and the USSR in the east. East and West Germany, and East and West Berlin, would remain divided until 1989. By October 1990, however, the two countries were reunited, and the Berlin Reichstag was once again the seat of government. Here, politicians would put East and West back together again, marrying a totalitarian, atheist, communist system with a democratic,

Christian, capitalist one. How did this marriage affect the everyday life of ordinary Germans? How did combining two telephone systems, two postal services, hospitals, farm land, property, industry, railways and roads work? How were women's rights, welfare, pensions, trades unions, arts, rents and housing affected? There had been no warning of this marriage and no preparation for it - and no country had ever tried putting two completely opposite systems together before. This is the story of what happened, in the words of the people it happened to - the people's story of an incredible unification.

This book surveys the transformation and projection of American power abroad since the collapse of the Berlin Wall. It summarizes U.S. handling of the Soviet Union's disintegration and covers the last seventeen years of U.S. interventions and conflicts.

The appearance of a hastily-constructed barbed wire entanglement through the heart of Berlin during the night of 12-13 August 1961 was both dramatic and unexpected. Within days, it had started to metamorphose into a structure that would come to symbolise the brutal insanity of the Cold War: the Berlin Wall. A city of almost four million was cut ruthlessly in two, unleashing a potentially catastrophic East-West crisis and plunging the entire world for the first time into the fear of imminent missile-borne apocalypse. This threat would vanish only when the very people the Wall had been built to imprison, breached it on the historic night of 9 November 1989. Frederick Taylor's eagerly awaited new book reveals the strange and chilling story of how the initial barrier system was conceived, then systematically extended, adapted and strengthened over almost thirty years. Patrolled by vicious dogs and by guards on shoot-to-kill orders, the Wall, with its more than 300 towers, became a wired and lethally booby-trapped monument to a world torn apart by fiercely antagonistic ideologies. The Wall had tragic consequences in personal and political terms, affecting the lives of Germans and non-Germans alike in a myriad of cruel, inhuman and occasionally absurd ways. The Berlin Wall is the definitive account of a divided city and its people.

A revelatory history of the commemoration of the Berlin Wall and its significance in defining contemporary German national identity.

This comprehensive yet concise introduction to modern German politics emphasizes the structural and attitudinal changes that have taken place over the past half-century in Germany, as well as the policy problems the country faces today. Focusing on the question of whether Germany is becoming the "sick man of Europe," this new edition discusses how many of the current trends and problems--such as labor market reforms, slow economic growth, and rising public deficits--are the result of Germany's poor adjustment to the demands of globalization.

Twenty years after its fall, the wall that divided Berlin and Germany presents a conceptual paradox: on one hand, Germans have sought to erase it completely; on the other, it haunts the imagination in complex and often surprising ways

Over 200 previously unpublished photographs document the building and development of the many check points, barbed wire barriers, and alarmed fences which formed the concrete wall around Berlin. This book tells dramatic tales of spectacular escapes and terrible deaths, and explains the history making events surrounding the building and fall of the Wall. Contemporary photographs are contrasted with photographs from the eighties to offer surprising insights into how the former death strip has changed since 1990. Relics of the wall in the current cityscape are prominently illustrated, including remnants of

the Wall itself, expanded metal lattice fences, observation towers, barbed wire and concrete posts. Also included are statistics showing the numbers of refugees and victims of the Wall, a guide to the museums and memorials and a summary of the literature and cinema treatment of the Wall, along with a brief chronicle of its history.

A comprehensive overview of the structures and influences of politics in Germany, which covers both historical and recent events

In 'The Victims of the Berlin Wall, 1961-1989', authors Hans-Hermann Hertle and Maria Nooke reveal the stories of 136 victims of the Berlin Wall.
