The Save a Life Initiative has just released its newest course: Basic Life Support. This manual is based on the 2015-2020 Basic Life Support guidelines published by the American Heart Association. The Basic Life Support (BLS) Provider Handbook is a comprehensive resource intended for health care professionals currently enrolled in a Basic Life Support Certification or Recertification Course. It serves as the primary training material for BLS Certification and Recertification courses. Although it is primarily intended for professionals to use during their courses, the handbook was also created to serve as daily resource material for health care professionals. Information covered in the handbook includes Basic Life Support instruction for adults and children, AED usage, airway obstruction and rescue breathing techniques, and more. Specific Algorithms for BLS and more are also included within the handbook. All material included in this handbook is delivered in a manner meant to enhance learning in the most comprehensive and convenient way possible.

The Save a Life Initiative has just released its newest course: CPR, AED, and First Aid. This manual is based on the 2020 CPR, AED, and First Aid guidelines published by the International Liaison Committee on Resuscitation and is designed to train people everywhere to respond to everyday emergencies. The course covers First Aid basics, including first aid kits, tooth injuries, bee stings, insect bites, nose bleeds, and other common problems. Advanced topics include heart attack, stroke, asthma emergencies, head injuries, burns, and more. Each topic is broken down into critical decisions to make and steps to take. This book will give you the confidence you need in situations that range from minor to crisis. The book also covers how to provide adult, child, and infant CPR, as well as the use of Automated External Defibrillators (AEDs). This course is written by Dr. Karl F. Disque, a board-certified anesthesiologist, and a registered pharmacist. Dr. Disque has certified thousands of healthcare professionals with his courses in Advanced Cardiac Life Support (ACLS), Pediatric Advanced Life Support (PALS), and Basic Life Support (BLS), and now he brings that same expertise to his first course designed for people in the community. This is one of the most effective and user-friendly training manuals on the market because it was created by a team dedicated to life support education with the goal of training people to help save lives. This manual is the primary training material for CPR, AED, and First Aid certification courses provided by Save A Life by NHCPS (www.savealife.com). While it is originally created for use during certification courses, the handbook is excellent reference material for both anyone to keep their everyday emergency response skills sharp. Available in paper or Kindle editions, this manual can help you study CPR, AED, and First Aid anywhere. Learn how to save a life today with the CPR, AED & First Aid Certification Card and Course by Save A Life by NHCPS. Download our eBooks FREE at <https://nhcps.com/free-ebooks-download>
