Business Research Methods is the complete introduction to doing business research and is an ideal guide for students embarking on a research project. Developed specifically with business and management students in mind, this textbook explores the nature and purpose of business research and the issues it entails, while also providing students with practical advice through "Tips and skills" boxes. In addition to a broad range of relevant examples, the book features a substantial discussion of ethics, and a strong emphasis on the most frequent challenges faced by students, such as choosing a research question, planning a project, and writing it up. Fresh voices and perspectives run throughout this edition. New author, Bill Harley, further internationalizes the book's coverage, based on his expertise in the Australian business and management context. Also hear from Amrit, Jordan, Anna, Ed, and Alex - an additional five students whose personal insights and advice in the "student experience" feature help you avoid common mistakes, and follow their successful strategies when undertaking your own research project. This edition has been extensively revised, updated, and streamlined. Coverage of E-Research is now woven throughout the entire book to reflect the centrality of internet-based research methods. The book is accompanied by a suite of online resources that include: For students: * Multiple choice questions * Research Project guide * Interviews with students * Data sets * Using Excel in data analysis (in Excel) * Web links For lecturers: * Test bank * Discussion questions * PowerPoint slides * Lecturer's guide * Case studies * Figures and plates from the text * VLE cartridge

An adaptation of 'Social Research Methods' by Alan Bryman, this volume provides a comprehensive introduction to the area of business research methods. It gives students an assessment of the contexts within which different methods may be used and how they should be implemented.

Research Methodology: Business and Management Contexts is a book for business and management students required to take a course in research methodology at an undergraduate level. The title provides a practical guide to research with examples that are relevant to South Africa and includes steps on how to write a conclusion and make recommendations.

Covering classic and contemporary organization development (OD) techniques, this is a comprehensive text on individual, team, and organizational change. Incorporating OD ethics and values into each chapter, Donald L. Anderson provides discussion of the real-world application of these theoretical ideas. In-depth case studies that follow major content chapters allow students to immediately apply what they have learned. In today's challenging environment of increased globalization, rapidly changing technologies, economic pressures, and expectations in the contemporary workforce, this book is an essential tool.

The visual constitutes an increasingly significant element of contemporary organization, as post-industrial societies move towards economies founded on creative and knowledge-intensive industries. The visual has thereby entered into almost every aspect of corporate strategy, operations, and communication; reconfiguring basic notions of management practice and introducing new challenges in the study of organizations. This volume provides a comprehensive

insight into the ways in which organizations and their members visualize their identities and practices and how they are viewed by those who are external to organizations, including researchers. With contributions from leading academics across the world, *The Routledge Companion to Visual Organization* is a valuable reference source for students and academics interested in disciplines such as film studies, entrepreneurship, marketing, sociology and most importantly, organizational behaviour.

A guide for organizational and social research in business studies and the social sciences, providing a clear framework for research design and methodology. It will be an invaluable tool for academics, researchers, and graduate students across the social sciences concerned with rigorous and relevant research in the contemporary world.

This book contains coverage of topics that employers identified as important, including customer-facing skills and self-presentation skills, and with an integrated project designed to promote active learning.
