Applications of Feminist Legal Theory to Women's Lives ...

Feminist jurisprudence the philosophy of law is based on the political, economic, and social inequality of the sexes and feminist legal theory is the encompassment of law and theory connected. The project of feminist legal theory is twofold. First, feminist jurisprudence seeks to explain ways in which the law played a role in women's former subordinate status.

Feminist legal theory - Wikipedia

Feminist engagement with law has taken a variety of forms over the years. Through litigation, campaigns for legal reform and legal education, feminists have engaged explicitly with law and the...

(PDF) Feminist Legal Theory - ResearchGate

FEMINIST LEGAL THEORY. Feminist legal theory is the study of the philosophical foundations of law and justice; informed by women's experiences, its goal is to transform the legal system and the understanding of it to improve the quality of jurisprudence and women's lives. Feminists working in law share the convictions that the historical and continuing exclusions of women from the law's protective domain have injured women and that the exclusion of women from the study of law has limited ...

A comprehensive survey of the applications of feminist legal theory to specific areas of the law

The Research Handbook on Feminist Jurisprudence surveys feminist theoretical understandings of law, including liberal and radical feminism, as well as socialist, relational, intersectional, post-modern, and pro-sex and queer feminist legal theories.

The eighteenth-century Enlightenment saw the birth of an era which sought legitimacy not from the past but from the future. No longer would human beings invoke the authority of tradition; instead, modern societies emerging in the West justified themselves by their success at increasing, through the application of scientific knowledge, human control over the world. Ever since this notion of modernity was formulated it has provoked intense debate. In this wide-ranging historical introduction to social theory, Alex Callinicos explores the controversies over modernity and examines the connections between social

theory and modern philosophy, political economy and evolutionary biology. He offers clear and accessible treatments of the thought of Montesquieu, Adam Smith and the Scottish Enlightenment, Hegel, Marx, Tocqueville, Maistre, Gobineau, Darwin, Spencer, Kautsky, Nietzsche, Durkheim, Weber, Simmel, Freud, Lukacs, Gramsci, Heidegger, Keynes, Hayek, Parsons, the Frankfurt School, Levi-Strauss, Althusser, Foucault, Habermas and Bourdieu, and concludes by surveying the state of contemporary social thought. A remarkably comprehensive and lucid primer, *Social Theory* is essential reading for students of politics, sociology and social and political thought.

The emergence of feminist legal theory has reshaped people's understanding of the law and its potential for reforming social and political norms. This collection includes both classic and new papers of feminist work in philosophy, psychoanalysis, political theory and literary criticism.

As a distinct scholarly contribution to law, feminist legal theory is now well over three decades old. Those three decades have seen consolidation and renewal of its central concerns as well as remarkable growth, dynamism and change. This Companion celebrates the strength of feminist legal thought, which is manifested in this dynamic combination of stability and change, as well as in the diversity of perspectives and methodologies, and the extensive range of subject-matters, which are now included within its ambit. Bringing together contributors from across a range of jurisdictions and legal traditions, the book provides a concise but critical review of existing theory in relation to the core issues or concepts that have animated, and continue to animate, feminism. It provides an authoritative and scholarly review of contemporary feminist legal thought, and seeks to contribute to the ongoing development of some of its new approaches, perspectives, and subject-matters. The Companion is divided into three parts, dealing with 'Theory', 'Concepts' and 'Issues'. The first part addresses theoretical questions which are of significance to law, but which also connect to feminist theory at the broadest and most interdisciplinary level. The second part also draws on general feminist theory, but with a more specific focus on debates about equality and difference, race, culture, religion, and sexuality. The 'Issues' section considers in detail more specific areas of substantive legal controversy.

Feminist legal theory is one of the most dynamic fields in the law, and it affects issues ranging from child custody to sexual harassment. Since its initial publication in 2006, *Feminist Legal Theory: A Primer* has received rave reviews. Now, in the completely updated second edition of this outstanding primer, Nancy Levit and Robert R.M. Verchick introduce the diverse strands of feminist legal theory and discuss an array of substantive legal topics, pulling in recent court decisions, new laws, and important shifts in culture and technology. The book centers on feminist legal theories, including equal treatment theory, cultural feminism, dominance theory, critical race feminism, lesbian feminism, postmodern feminism, and ecofeminism. Readers will find new material on women in politics, gender and globalization, and the promise and danger of expanding social media. Updated statistics and empirical analysis appear throughout. The authors, prominent experts in the field, also address feminist legal methods, such as consciousness-raising and storytelling. The primer offers an accessible and pragmatic approach to feminist legal theory. It demonstrates the ways feminist legal theory operates in real-life contexts, including domestic violence, reproductive rights, workplace discrimination, education, sports, pornography, and global issues of gender. The authors highlight a sweeping range of cutting-edge topics at the intersection of law and gender, such as single-sex schools, abortion, same-sex marriage, rape on college campuses, and international trafficking in women and girls. At its core, *Feminist Legal Theory* shows the importance of the roles of law and feminist legal theory in shaping contemporary gender issues.

The leading text in the field, *Introduction to Feminist Legal Theory* was the first book that served as an introductory survey of feminist jurisprudence. Its historical view of feminist legal theory places issues in social context and thoroughly reviews the evolving paradigms of contemporary feminism from the 1970s through the present. The full range of legal issues affecting women are covered, including gender discrimination, rape, sexual harassment, motherhood, reproductive issues, and much more. Clear, energetic presentation keeps students engaged and involved with succinct overviews, intellectually stimulating material, and jargon-free prose. The Third Edition features up-to-date theories and topics, such as the "autonomy" feminism and "masculinities" theory. Expansion of the current theory-based structure includes the "big three" feminisms described in the previous edition and the "new three" feminisms, which are expanded in the third edition. New applied areas are covered as well, such as transgender legal issues and sex trafficking. While the book remains U.S.-focused, important new material on global and comparative feminism has been added. Throughout the text, students will find discussion about changes in the law since 2003 on issues such as rape, pay equity, sex stereotyping, marriage equality, Title IX, and more. Thoroughly updated, the revised Third Edition presents: Up-to-date theories and topics "autonomy" feminism, "masculinities" theory, "social justice" feminism LGBT and critical race perspectives a Two-part organization, focusing on chronology and substantive areas of the law that are of particular importance to feminist legal scholars Part one focuses on chronology by examining the three generations of feminist legal theory that have emerged since 1971 the Generation of Equality (1970s) the Generation of Difference (1980s) the Generation of Complex Identities (1990s to present) this part will also include the "new three" feminisms in the 3rd edition (intersectional, autonomy and postmodern feminism) Part two focuses on substantive areas of the law, which fall into three categories economic subordination of women sexual subordination of women motherhood and reproduction Introduction of new applied areas transgender legal issues sex trafficking reproductive justice More material on global and comparative feminism, while remaining U.S.-focused Discussion of changes in the law since 2003 rape domestic violence pay equity torts and tax law same-sex marriage Title IX, and more

An analysis of the legal status of women includes discussions of discrimination, rape, sexual harassment, and pornography

Kennedy argues that American radicalism is possible and desirable. One base for radical politics is the institutional workplace; another is popular culture (hence, sexy dressing). Kennedy's aim is to wed the rebelliousness, irony, and irrationalism of cultural modernism and postmodernism to the earnestness of political correctness.
