The EU's adoption of International Financial Reporting Standards has necessitated a significant shift from national accounting standards. IAS 32 and 39 are the most complex. *Applying International Financial Reporting Standards: Financial Instruments* breaks down the intricacies of IAS 32 and IAS 39 into a step-by-step approach, explaining the requirements of the standards and how to apply them. Worked examples throughout cover a range of possibilities from straightforward situations to complex issues encountered by multi-national enterprises. Vital areas covered include: how to classify financial assets into the four types defined by the standards, and what treatment is applicable for each type; approaches to determining fair value for these instruments; hedge accounting - where and when this is permitted; how to present financial instruments, their losses and gains, in the balance sheet and profit and loss; where these standards differ from UK and US GAAP. Written by Ian Hague, an industry expert who has been closely involved with the development of the standards, *Applying International Financial Reporting Standards: Financial Instruments* is an invaluable reference book for anyone preparing, auditing or using financial statements.
