Purchase of this two-book Power Pack represents a retail savings of \$2.95 as compared to the price of books purchased separately. This major revision prepares students to succeed on the New York State Math A Regents Exam as it is now given. The book places increased emphasis on use of the graphing calculator, and in line with New York State Regents core curriculum, it shows how given problems can be solved in several different ways. The author also includes new Regents question types dealing, for instance, with motion problems and mathematical systems defined by tables. The totally rewritten chapter on problem-solving offers students a core set of strategies that apply to curriculum-related exercises. In addition to subject review, practice questions and exercises, the book also presents some complete recent Math A Regents exams with answers.

This brand new Regents review "Redbook" conforms to the new Regents Math B curriculum taught in secondary schools throughout New York State. The new Math B exam covers topics that until recently were included in portions of the old Sequential Math Course II and all of the Sequential Math Course III.
