It is a guide to the WTO's Agreement on Trade-Related Aspects of Intellectual Property Rights (TRIPS).

This Guide to Trade Policy Analysis provides the main tools for the analysis of trade policy. Written by experts with practical experience in the field, this publication outlines the major concepts of trade policy analysis and contains practical guidance on how to apply them to concrete policy questions. The Guide has been developed to contribute to the enhancement of developing countries' capacity to analyse and implement trade policy. It is aimed at government experts engaged in trade negotiations, as well as students and researchers involved in trade-related study or research.

This book charts the emergence of experimentalist governance in the implementation of EU competition law as a response to uncertainty and the limits of hierarchical enforcement in an increasingly dynamic and heterogeneous economic environment. It contributes to ongoing debates about the current state of EU competition law and provides an innovative account of emergent enforcement trends and its future direction. It also argues that an experimentalist evolution of competition law and market regulation attenuates concerns about the competitive strictures of EU law on national economic and regulatory institutions. Through its focus on experimentalist governance, the book provides guidance on completing experimentalist infrastructures for market regulation, as well as on the role of courts
