From the author of the Pulitzer Prize-winning Arab and Jew, an intimate portrait unfolds of working American families struggling against insurmountable odds to escape poverty. As David K. their version of the American Dream is a nightmare: low-paying, dead-end jobs; the profound failure of government to improve upon decaying housing, health care, and education; the failure of families to break the patterns of child abuse and substance abuse. Shipler exposes the interlocking problems by taking us into the sorrowful, infuriating, courageous lives of the poor—white and black, Asian and Latino, citizens and immigrants. We encounter them every day, for they do jobs essential to the American economy. This impassioned book not only dissects the problems, but makes

"How's your faith?" David's answer was just emerging. Raised by a Catholic mother and a Jewish dad, he had a strong sense of Jewish cultural and ethnic identity, but no real belief--until his marriage to a Protestant woman of strong faith inspired him to explore his spirituality for himself and his growing family. David's journey has taken him inside Christian mega-churches and into the heart of Orthodox Judaism. He's gone deep into Bible study and asked tough questions of America's most thoughtful religious leaders, including evangelical preacher Joel Osteen and Cardinal Timothy Dolan, the Catholic Archbishop of New

It has brought him back to his childhood, where belief in God might have helped him through his mother's struggle with alcoholism, and through a difficult period of public scrutiny and his departure from NBC News, which saw his faith tested like never before. David approaches his faith with the curiosity and dedication you would expect from a journalist accustomed to holding politicians and Presidents accountable. But he also comes as a seeker, one just discovering why spiritual journeys are always worthwhile"--

The popular media often portrays Asian Americans as highly educated and successful individuals—the "Model Minority." As the ethnic minority with the largest percentage of college graduates, many Asian Americans do enter the professional workforce. However, many of them seem to stall in their careers and never make it to the corner offices. Leading executive coach Jane Hyun explores how traditional Asian values can be at odds with Western corporate culture. By using anecdotes, case studies, and exercises, Hyun offers practical solutions for resolving misunderstandings and overcoming challenges

For them, financial issues are mired within the larger ramifications of poor urban policies, restorative negligence on the state and federal level and—even before the decision to declare Detroit bankrupt in 2013—the root causes of a city's fiscal demise. Like Matthew Desmond's *Evicted*, *Broke* looks at what municipal distress means, not just on paper but in practical—and personal—terms. More than 40 percent of Detroit's 700,000 residents fall below the poverty line. Post-bankruptcy, they struggle with a broken real estate market, school

Kirshner makes a powerful argument that cities—the economic engine of America—are never quite given the aid that they need by either the state or federal government for their residents to survive, not to mention flourish. Success for all America's citizens depends on equity of opportunity.
