Encompassing nearly 2,000 years of heists and tunnel jobs, break-ins and escapes, A Burglar's Guide to the City offers an unexpected blueprint to the criminal possibilities in the world all around us. You'll never see the city the same way again. At the core of A Burglar's Guide to the City is an unexpected and thrilling insight: how any building transforms when seen through the eyes of someone hoping to break into it. Studying architecture the way a burglar would, Geoff Manaugh takes readers through walls, down elevator shafts, into panic rooms, up to the buried vaults of banks, and out across the rooftops of an unsuspecting city. With the help of FBI Special Agents, reformed bank robbers, private security consultants, the L.A.P.D. Air Support Division, and architects past and present, the book dissects the built environment from both sides of the law. Whether picking padlocks or climbing the walls of high-rise apartments, finding gaps in a museum's surveillance routine or discussing home invasions in ancient Rome, A Burglar's Guide to the City has the tools, the tales, and the x-ray vision you need to see architecture as nothing more than an obstacle that can be outwitted and undercut. Full of real-life heists-both spectacular and absurd-A Burglar's Guide to the City ensures readers will never enter a bank again without imagining how to loot the vault or walk down the street without planning the perfect getaway.

Christopher Walker has employed Eastern arts tools for years, embracing the impermanence of life and helping people learn to naturally heal themselves from the stress and emotional turmoil experienced at the end of an intimate, personal relationship. Founder of Innerwealth Consulting, Walker has coached thousands of individuals to evolve and grow, using the universal laws of nature. The ancient laws of nature tap the deepest core of an individual's humanity dealing with emotional attachments, heartbreak and complex human dynamics. The laws recognize three levels of human mind: the lower mind, which is guided by material attachments; the middle mind, which is guided by emotions; and the higher mind, which is guided by the experience of the journey and cares nothing of the outcome. The ancient laws provide guidance regarding how to work with all three levels of mind to achieve harmony. Breaking Up: Using the Laws of Nature to Learn How to Let Go applies ancient wisdom to modern times to help one manage the end of a relationship: to let go through the challenge of emotional and physical separation, to move forward in life with love and passion and to maintain respect for everyone involved.
