they provide essential for their development as leaders. But not all of those managers are successful at learning those lessons. That difficulty is often related to a manager ' s relying too much on one preferred learning tactic—a tactic that might not be suited for gleaning the lessons of a particular job experience. By increasing the number of learning tactics and becoming a more versatile learner, managers can better position themselves to take advantage of the lessons that job experiences offer and contribute to their leadership development.

In recent decades, repeated use of herbicides in the same field has imposed selection for resistance in species that were formerly susceptible. On the other hand, considerable research in the private and public sectors has been directed towards introducing herbicide tolerance into susceptible crop species. The evolution of herbicide resistance, understanding its mechanisms, characterisation of resistant weed biotypes, development of herbicide-tolerant crops and management of resistant weeds are described throughout the 36 chapters of this book. It has been written by leading researchers based on the contributions made at the
