AVAILABLE FOR THE FIRST TIME IN eBook! General Simon Bolivar, “the Liberator” of five South American countries, takes a last melancholy journey down the Magdalena River, revisiting cities along its shores, and reliving the triumphs, passions, and betrayals of his life. Infinitely charming, prodigiously successful in love, war and politics, he still dances with such enthusiasm and skill that his witnesses cannot believe he is ill. Aflame with memories of the power that he commanded and the dream of continental unity that eluded him, he is a moving exemplar of how much can be won—and lost—in a life.

Calculus and its Applications provides information pertinent to the applications of calculus. This book presents the trapping technique in defining geometrical and physical entities that are usually regarded as limits of sums. Organized into 20 chapters, this book begins with an overview of the notion of average speed that seems to appear first as a qualitative concept. This text then presents the concepts of external and internal parameters to increase the appreciation of parametric functions. Other chapters consider separable differential equations with more detail than usual with their suitability in describing physical laws. This book discusses as well the study of variable quantities whose magnitude is determined by the magnitudes of several other variables. The final chapter deals with a homogeneous differential equation and auxiliary equations consisting imaginary roots. This book is a valuable resource for mathematicians and students. Readers whose interests span a variety of fields will also find this book useful.

"Pain is a preoccupation in dentistry, but the dentist's role has expanded beyond the treatment of dental pain to being one of the most involved in the treatment of orofacial pain. Orofacial Pain: A Guide to Medications and Management guides readers through the rational use of medications for the treatment of chronic orofacial pain, including oral, injectable and topical medications. It also provides relevant information about treatment choices for managing neuropathic and musculoskeletal pain, headache and uncommon orofacial pain disorders"--Provided by publisher.

"You can be lonely anywhere, but there is a particular flavor to the loneliness that comes from living in a city, surrounded by thousands of strangers. The Lonely City is a roving cultural history of urban loneliness, centered on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. What does it mean to be lonely? How do we live, if we're not intimately involved with another human being? How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Olivia Laing explores these questions by travelling deep into the work and lives of some of the century's most original artists, among them Andy Warhol, David Wojnarowicz, Edward Hopper, Henry Darger and Klaus Nomi. Part memoir, part biography, part dazzling work of cultural criticism, The Lonely City is not just a map, but a celebration of the state of loneliness. It's a voyage out to a strange and sometimes lovely island, adrift from the larger continent of human experience, but visited by many - millions, say - of souls"--

Molly Arnette is very good at keeping secrets. She lives in San Diego with a husband she adores, and they are trying to adopt a baby because they can't have a child on their own. But the process of adoption brings to light many questions about Molly's past and her family-the family she left behind in North Carolina twenty years before. The mother she says is dead but who is very much alive. The father she adored and whose death sent her running from the small community of Morrison's Ridge. Her own birth mother whose mysterious presence in her family raised so many issues that came to a head. The summer of twenty years ago changed everything for Molly and as the past weaves together with the present story, Molly discovers that she learned to lie in the very family that taught her about pretending. If she learns the truth about her beloved father's death, can she find peace in the present to claim the life she really wants? Told with Diane Chamberlain's compelling prose and gift for deft exploration of the human heart, Pretending to Dance is an exploration of family, lies, and the complexities of both.

Business leadership coach Larry Julian helps readers navigate "the gray zone"--those make or break moments of decision making that are filled with uncertainty. There are times when intellectual and business logic are tested beyond one's perceived limits, when important decisions have no correct answers and can only be made by a leap of faith. Our true greatness lies within the gray. Julian shows readers that, with God's guidance, uncertainty is the very catalyst for making wise, impactful decisions that shape destinies. We learn to live and lead in the context of uncertainty rather than becoming paralyzed by it. GOD IS MY COACH is the means to living a significant life and to leading others in an uncertain world.

Suatu hari Tata bermain ke rumah saudaranya. Dia melihat saudaranya memelihara kucing dan merawatnya dengan telaten. Tata jadi ingin punya kucing juga ?. Ketika tidur, dia selalu memimpikan kucing dengan suara ?miaaaw?-nya. Iiuh, menggemaskan! Ketika Tata bilang ingin memelihara kucing, orang tuanya setuju. Jadilan Tata punya ?sahabat? baru, Niby, namanya ? Bagaimana, ya, kalau Tata dan teman-temannya ikutan kontes kucing? Kira-kira, Niby menang nggak, ya? [KKPK, DAR Mizan, Cerita, Anak, Indonesia]
