The need for reference books, selection guidelines, issues about circulation, descriptions of various types of books, and ideas for promoting the use of these books in a congregational library are covered in this guide. The work opens with a discussion of what reference books are and broad guidelines for deciding which books should be in a congregational library. Guidelines for building the reference collection suggest ways to determine which books are currently owned, what is needed, what can be afforded, what will fit into the library, and how to plan for the future. The basics of learning to be a reference librarian are then outlined, including such areas as helping patrons to answer questions and helping them to learn. Promoting the reference section to the church or synagogue's education staff, youth groups, and other individuals is also described. Sample materials are provided, including a leaflet for a workshop on tools for Bible study; a bibliography of reference books; a quiz on library reference sources for patrons; and a sample lesson for Bible instructors. An annotated bibliography of reference books includes books about the Bible, as well as works on church history, comparative religions, denominations, music, and worship and preaching. An annotated list of reference books, prepared by Marcia Posner specifically for small, Jewish libraries, includes biographies, dictionaries, directories and almanacs, encyclopedias, history, the Holocaust, Israel and Zionism, Judaism, librarianship, quotations, and rabbinic literature. A list of publishers of religious reference books is also provided. (SD)

Plague, a devastating and recurring affliction throughout the Renaissance, had a major impact on European life. Not only was pestilence a biological problem, but it was also read as a symptom of spiritual degeneracy and it caused widespread social disorder. Assembling a picture of the complex and sometimes contradictory responses to plague from medical, spiritual and civic perspectives, this book uncovers the place of music - whether regarded as an indispensable medicine or a mortal poison that exacerbated outbreaks - in the management of the disease. This original musicological approach further reveals how composers responded, in their works, to the discourses and practices surrounding one of the greatest medical crises in the pre-modern age. Addressing topics such as music as therapy, public rituals and performance and music in religion, the volume also provides detailed musical analysis throughout to illustrate how pestilence affected societal attitudes toward music.

Christian leaders often feel uneasy about asking others for money. Rather than viewing fundraising as a necessary but unpleasant task in supporting spiritual endeavors, Henri Nouwen asserts that fundraising is a ministry. The question that Christians must explore is their relationship with money and whether they find security in God or their possessions. Drawing on many lessons from scripture, Nouwen emphasizes that individuals must be moved to a common vision in order to feel generous in giving to a fundraising effort. For the act of fundraising involves not only the gift of money to a common goal but also the gifts of involvement, energy, and prayer for a common mission. Second Corinthians 9:8 states: "God is able to provide you with every blessing in abundance, so that by always having enough of everything, you may share abundantly every good work."

This sourcebook outlines cataloguing techniques for a wide variety of resources, from ancient artifacts to architectural drawings. Profiling the methods of experts from libraries, art galleries, museums and other institutions, the text offers practical guidance for organizing diverse materials.

This book provides substantial profiles of individuals and families who made significant contributions to the American philanthropic tradition from the 1600s to the present. The volume encompasses men and women who significantly shaped American life by their dedication to voluntary service or charitable donations. The 78 entries describe 110 individuals (a number of essays describe entire families, such as the Rockefellers, Booths, and Guggenheims). Most essays are 1,500-2,500 words in length, but family entries range from 2,500-9,000 words. Each essay examines a philanthropist's early years, education, and career, and then focuses upon his or her philanthropic philosophy and actions. Particular attention is paid to an individual's motivations and justifications for philanthropy. Short samples of each philanthropist's writings are included, and the important societal contributions of each individual's philanthropic activity are assessed. All entries are cross-referenced and include a bibliographic list of references (print and nonprint sources). Many feature photos, and some describe the location of personal papers and other manuscript sources. This book also includes a preface, introduction, timeline, and lists of videos and children's books on American philanthropy. Sixty scholars contributed to this volume, each of who is notable for work on certain individuals or in the broad field of American philanthropy. These contributors did a great deal of original research, making this book the only source for detailed information on many of the included individuals.

Wildflowers and the Call to the Altar is a fascinating story of the history of the St. Francis Altar Society, embedded within the tri-cultural nexus of Santa Fe, New Mexico. For close to a hundred years, the society responded to the call that the church, established in 1610, required a formal Altar Society to care for the sanctuary needs, yet also to address the personal sanctification of the members. Since its inception, the society has served the altar of the church and extended its vision to "the altar of the world" through works of social justice, which are more urgent than ever, along with the care of the altar and the laundry. There is room for the holiness and fidelity of women to serve the church. Under the mantle of humility, and the commitment to mission, the women of the St. Francis Altar Society have persisted like the women at the foot of the cross. They have embraced the call to ministry and discipleship extended to all in the Gospels. Service to the altar extends into the world, where the reality of the love of Christ intersects with everyday life.
