homes will inspire you to create an oasis with “desert vibes” wherever you are. Creatives are drawn in by the extreme landscapes and limited resources of the desert; in fact, they’re inspired by them, and the homes they’ve built here prove the power of an oasis. From renovated Airstreams to sprawling, modern stucco, desert has become the new beachfront. In Oasis, artist iO Tillett Wright captures the best of this specific culture that emphasizes living simply, beautifully, and in connection with the earth. He highlights the homes that define this desert mindset, featuring the classics like Georgia O’Keefe’s in Abiquiu, New Mexico, alongside more modern homes such as Michael Barnard’s Solar House in Marfa, Texas. With Casey Dunn’s stunning photography, Oasis will transport you to these relaxing refuges, where you’ll learn what elements create the balance of intentionality, ease, style, and function that these homes exude.

"Whether you covet a renovated Airstream or a sprawling, modern stucco, desert has become the new beachfront when it comes to prime real estate. Artist iO Tillett Wright captures this specific culture shared all over the world of desert-living, from Texas and California in the United States to Chile, Morocco, and Australia. The detailed overview of the lifestyle is what sets this book apart. Featuring classic, well-known desert homes like Georgia O'Keefe's in Abiquiu, New Mexico alongside more modern homes like The Solar House in Marfa, Texas, Oasis is the definitive guide to a longstanding and still growing trend in home design. With Casey Dunn's stunning photography, you'll get a behind-the-scenes look at the most interesting builders, creators, and business owners who are pioneering this unique lifestyle. If you live in the desert and are creating your own oasis or if you're simply inspired by the modern yet laid-back style, you'll be able to harness the beauty of the desert wherever you are"--

For those who crave the tranquility of nature, fifty houses selected from around the world with the most ecologically sustainable and innovative breakthroughs in architecture and design. Seeking the perfect escape from city life and congestion? This book is filled with environmentally low-impact homes and retreats using eco-friendly materials and technology that reduce the carbon footprint and lower its energy needs, all built within the past ten years. The broadening interest in back to nature and homesteading plays a role, and many new structures are examples of sustainability that are in touch with nature, far from the madding crowd but not only for the select few. International in scope, the book is an A to Z of ideas for the twenty-first century, from a pavilion in Argentina to a forest house in New Zealand, all designed to have minimal architectural traces--made with local materials that harmonize with the surrounding environment. An outdoor care retreat outside Oslo provides space where visitors can benefit

from the therapeutic qualities of nature; a residence in Tottori, Japan, adapts with the changing seasons; a treehouse in Cape Town uses cylindrical towers that are elevated on stilts, offering views among the trees; and in Quebec, three geodesic domes were designed as part of an eco-tourism project to highlight the area's natural beauty. Each house is paired with photographs and plans.
