'Anthology' comes from the Greek word that stands for garlands - a bouquet of flowers. An anthology then, should be a sort of reminder of something else, a small token of something much larger. In the case of flowers, they bring with their fragrance and colorfulness the reminder of the fields, of a season. Coelho's anthology, therefore, is not only a collection of texts or poems, but a gift, something arranged according to his sensitivities, to give to others. The selection of books presented in this volume have been chosen as if from a vast field of flowers, stretching infinitely into time's horizon. Coelho's selection is ordered in to the four elements, symbolizing both our world on all its directions, and the way we dwell in this world, the way we say it. In 'Earth' we find writers as diverse as Oscar Wilde and D H Lawrence; in 'Air' Nelson Mandela and Gabriel Garcia Marques; in 'Fire' Rumi and Mary Shelley; in 'Water' Hans Christian Anderson and Machiavelli.

Most people would agree that thoughtful behavior and common decency are in short supply, or simply forgotten in hurried lives of emails, cellphones, and multi-tasking. In Choosing Civility, P. M. Forni identifies the twenty-five rules that are most essential in connecting effectively and happily with others. In clear, witty, and, well...civilized language, Forni covers topics that include: \* Think Twice Before Asking Favors \* Give Constructive Criticism \* Refrain from Idle Complaints \* Respect Others' Opinions \* Don't Shift Responsibility and Blame \* Care for Your Guests \* Accept and Give Praise Finally, Forni provides examples of how to put each rule into practice and so make life--and the lives of others--more enjoyable, companionable, and rewarding. Choosing Civility is a simple, practical, perfectly measured, and quietly magical handbook on the lost art of civility and compassion. "Insightful meditation on how changing the way we think can improve our daily lives.... A deft exploration that urges us to think before speaking." —Kirkus, Starred Review

Wall Street scandals. Fights over taxes. Racial resentments. A Lakers-Celtics championship. The Karate Kid topping the box-office charts. Bon Jovi touring the country. These words could describe our current moment—or the vaunted iconography of three decades past. In this wide-ranging and wickedly entertaining book, New York Times bestselling journalist David Sirota takes readers on a rollicking DeLorean ride back in time to reveal how so many of our present-day conflicts are rooted in the larger-than-life pop culture of the 1980s—from the “Greed is good” ethos of Gordon Gekko (and Bernie Madoff) to the “Make my day” foreign policy of Ronald Reagan (and George W. Bush) to the “transcendence” of Cliff Huxtable (and Barack Obama). Today’s mindless militarism and hypernarcissism, Sirota argues, first became the norm when an ’80s generation weaned on Rambo one-liners and “Just Do It” exhortations embraced a new religion—with comic books, cartoons, sneaker commercials, videogames, and even children’s toys serving as the key instruments of cultural indoctrination. Meanwhile, in productions such as Back to the Future, Family Ties, and The Big Chill, a campaign was launched to reimagine the 1950s as America’s lost golden age and vilify the 1960s as the source of all our troubles. That 1980s revisionism, Sirota shows, still rages today, with Barack Obama cast as the 60s hippie being assailed by Alex P. Keaton–esque Republicans who long for a return to Eisenhower-era conservatism. “The past is never dead,” William Faulkner wrote. “It’s not even past.” The 1980s—even more so. With the native dexterity only a child of the Atari Age could possess, David Sirota twists and turns this multicolored Rubik’s Cube of a decade, exposing it as a warning for our own troubled present—and possible future.
