This is the third book in the series of Revision Texts aimed at certificate students enrolled in the Institutes of Technology, VECs, RTCs, private third level colleges, universities, and the entrance exam for the Law Society of Ireland's Law School. Contract law is a core subject and this text will cover all the required areas.

Utilizing topical practical examples throughout, this volume provides a detailed account of contract law, explaining the fundamental principles and how the law operates in practice. It focuses on UK common law, but covers relevant EU law and makes comparisons with other common law jurisdictions.

Essential revision tool: they provide a concise outline of the principles for each of the major subject areas within undergraduate law. Written in clear, straight-forward language, the authors explain the principles, and highlight key cases and legislative provisions for each subject.

A practical guide for the non-contentious commercial lawyer, this book provides a "cradle to grave" view of transactions relating to the supply of goods and services. The core of the book deals with pre-contractual issues and the formation of the relevant contracts, then moves on to discharge of contractual obligations. Finally, defective performance is covered. The book comes with a CD-rom of precedents

Routledge Q&As give you the tools to practice and refine your exam technique, showing you how to apply your knowledge to maximum effect in an exam situation. Each book contains essay and problem-based questions on the most commonly examined topics, complete with expert guidance and fully worked model answers that help you to: Plan your revision: introducing how best to approach revision in each subject Know what examiners are looking for: identifying and explaining the main elements of each question to help you understand the best approach providing marker annotation to show how examiners will read your answer Gain marks, and avoid common errors: identifying common pitfalls students encounter in class and in assessment providing revision advice to help you aim higher in essays and exams Understand and remember the law: using diagrams as overviews for each answer to demonstrate how the law fits together The series is also supported by an online resource that allows you to test your progress during the run-up to exams. Features include: multiple choice questions, bonus Q&As and podcasts. www.routledge.com/cw/revision

This edition of an established text provides a concise and up-to-date introduction to the English legal system. Both law students and students on vocational courses will welcome it as a highly readable and stimulating overview of the subject.

This book presents the key principles of contract law in a clear, and straightforward language. It explains basic principles and highlights key cases and statutes. It focuses on those topics favored by examiners, and provides an essential revision aid for all students of contract law.

With dynamic learning features and visual aids, the Inside Series helps you make the most of your study time, throughout the semester and as you prepare for the final. Unlike heavily abridged treatises, the Inside Series is carefully written in a concise, straightforward style that clearly identifies the essential components of the law and how they fit together. You can quickly learn what is important and why. Overviews and Tables of Contents in each chapter act as a roadmap to guide you through topics, showing you how each relates to the larger legal framework. FAQs clarify points of law and help you avoid common mistakes and misconceptions. Sidebars give fascinating additional detail from legal history, policy, famous cases and more. The graphic design supports your visual learning, and features such as bolded key terms, summaries, and Connections help reinforce your understanding while giving you ample opportunity for self-review. Surprisingly concise, visually compelling, the Inside Series is extremely useful throughout the semester to help you identify the essential components of the law and how they fit together. Comprehensive coverage of the essential topics emphasizes what you need to know and why. Clear, straightforward, informal writing explains every topic for you without over-simplifying the concepts. Overviews and Tables of Contents in each chapter act as a roadmap to guide you through topics, showing you why each matters and how it fits into the larger framework of the law. FAQs clarify points of law and help you avoid common mistakes and misconceptions. Sidebars enrich the text with fascinating detail from legal history, policy, famous cases and more. Bolded key terms, Connections and summaries reinforce your understanding and give you ample opportunity for self-review. The overall graphical design of the series supports your visual learning.

Summarizes the Federal Acquisition Regulation System (FARS), improper business practices and personal conflicts of interest, publicizing contract actions, outsourcing/privatization, and competition requirements. Addresses acquisition plans, contractor qualifications, contract delivery, and performance. Explains socio-economic policies, commercial items, options, sealed bidding, and negotiation. Reviews general contracting requirements, intellectual property, cost accounting standards, cost principles, financing, protests, disputes, and appeals. Explores research and development contracting, construction and architect-engineer contracts, inspection and warranty, value engineering, delays, suspension of work, modifications, subcontracting, and government contract termination.
