THE REFLEXOLOGY GUIDE Step By Step Practical Guide to Basics and Techniques of Hands-On and Foot Reflexology and Body Massage Reflexology is a sort of back rub that includes applying various measures of strain to the feet, hands, and ears. It depends on a hypothesis that these body parts are associated with specific organs and body frameworks. Despite the fact that reflexology isn't utilized to analyze or fix infection, a great many individuals around the globe use it to supplement different medicines when tending to conditions like tension, asthma, disease treatment, cardiovascular issues, diabetes, cerebral pains, kidney capacity, PMS, and sinusitis. In this book, everything you need to know about basics and techniques of hands-on and foot Reflexology and body massage is discussed. GET YOUR COPY TODAY

This textbook guides massage therapists through each step of delivering a spa treatment—from consideration of the indications and contraindications to scope of practice issues, supplies, room set-up, specific procedure steps, and ideas for integrating massage techniques, spa products, and enhancing accents. While wet-room treatments are discussed, the focus is on dry-room treatments, which can be delivered in a wider variety of settings. More than 250 full-color photographs illustrate each technique and treatment. Treatment Snapshot boxes provide a quick overview of the treatment before the detailed step-by-step procedures section. Sanitation Boxes offer clean-up and sanitation tips. Sample Treatments include promotional descriptions, product recommendations, and recipes for creating inviting smell-scapes.

The Treatment of Diabetes Mellitus with Chinese Medicine is a textbook and a clinical manual on the Chinese medical treatment of diabetes mellitus (DM) and its many complications. Each facet of this complex condition is discussed in terms of its Western medical definition, epidemiology, etiology, pathophysiology, diagnosis, current standards of care, complications, and treatment plans. This text outlines goals of therapeutic care, general considerations, diet & exercise, patient education, blood glucose monitoring and much more. This text discusses: * Gestational Diabetes * Diabetic Ketoacidosis * Diabetic Hypertension * Diabetic Hyperlipoproteinemia * Diabetic Retinopathy * Diabetic Neuropathy *

Common opportunistic infections in patients with diabetes * Patient adherence and practitioner monitoring * Appendix of Chinese medicinals, and Western pharmaceuticals.

Initially practiced by the ancient Chinese and Native Americans, Press; "Be Health with Reflexology" shows you how to use massage pressure on your feet to cure holistically. Each part of your body has an appropriate reflex point on the feet; By putting pressure on these precise points, you will naturally and non-invasively deliver relief to the corresponding part of your body. Not surprisingly, reflexology has become one of the most popular alternative forms of healing. Many people go through reflexology for various reasons. There are also research studies on reflexology being able to help with various medical conditions. There are also ongoing studies on the positive connection of reflexology to medical conditions such as cancer, anxiety, type II diabetes, cardiovascular problems, tension headaches/migraines, multiple sclerosis, and sinusitis. However, reflexology as a treatment for these conditions is still being solved, and nothing is proven yet. For now, however, reflexology is an important aid in relieving symptoms. It can be an alternative way to maintain your overall health. Most importantly, reflexology can induce calm and relaxation, and - in today's stressful world - that's what many people need most. While the principles of reflexology are simple, reflexology charts can be overwhelming for the beginner. "Be Health with Reflexology" clearly explains where to find the reflex point on foot, how it relates to the body, and how to apply the correct pressure for the strongest effect. Organized by reflex points from the top of the body to the bottom-one at a time on a double page-this guide is a breeze to follow and a fun and easy way to explore the art of foot reflexology. What are you waiting for? Start to Learn about Reflexology today and let's start it! BUY THE BOOK NOW!

The facts: Upwards of 65 million people worldwide suffer from glaucoma. It's the second most prevalent, yet preventable, cause of blindness. It knows no age, race, or location...no one is immune. What you don't know can blind you, but what you do know can save your sight! "Those of us in the field of eye care recognize that many of the subjects so masterfully handled by Edith are never discussed in routine doctor visits. Having a book like this as a reference provides answers to many questions and even suggests lists of questions to ask. As a firm believer that each of us has the primary responsibility for our own health care, I appreciate the advice and encouragement Edith provides." -- Thomas M. Brunner, President and CEO, Glaucoma Research Foundation Inside you'll learn: The specific characteristics and issues associated with various types of glaucoma and what to expect from each. Common mistakes glaucoma doctors and patients make that can have a lifelong impact on your sight...and strategies for avoiding them. Insights into the pros, cons and overall risks associated with the wide range of treatments available, plus guidance on deciding which treatment might be best for you. How to

Online Library Cure Diabetes With Foot Reflexology

confidently confront the concerns many glaucoma patients struggle with. Proven, step-by-step strategies glaucoma patients can use for controlling and countering stress...and much more! "On behalf of the entire family of The Glaucoma Foundation, it is an honor and pleasure to congratulate Edith Marks, a collaborator, partner, and true friend of ours on a monumental achievement. This updated and expanded version of her earlier book is sure to be a gift to the glaucoma community and be enthusiastically used by those who suffer from these insidious diseases we all call glaucoma." -- Scott Christenson, CEO, The Glaucoma Foundation

"By the study, experimentation and practice of natural healing, women are changing and charting the future of health care. Despite heavy resistance or lack of recognition from patriarchal medicine, they are nevertheless making positive changes that will continue and increase. Women's emphasis on one-to-one work practiced in mutual agreement and participation is very different from mechanized and big-money medicine, and has results and successes far beyond expectations. The emphasis on self-healing returns health care to the consumer, to women's lives and bodies, for the first time in centuries. The medical system cannot control a movement held in the hands of women, though it may try. Women are taking control again of healing, our daughter-right, for the first time since the matriarchies and the Inquisition."—from the Introduction
