A Doctor Who sourcebook.

For the first time, the never-before-told history of the Doctor’s most dangerous enemy, the Daleks, from their genesis thousands of years ago to their conquest of the universe. Doctor Who: Dalek, is the one and only volume devoted solely to the history of the Doctor’s greatest enemy. The Daleks, with their watchword cry "Exterminate!", are a race of cyborg aliens single-mindedly determined to conquer the universe and end all life forms they consider inferior. First appearing on Doctor Who in 1963, the Daleks are among the show’s most popular villains. Reminiscent of human-sized pepper shakers, the external mechanical casing of the Dalek protects a soft, repulsive creature whose electronic voice is reduced to a squeak when outside of its shell. Doctor Who: Dalek chronicles the Daleks' genesis through the Time War and their ongoing conquest of the universe. Here are never-before-told stories about these legendary creatures—including terrifying near-mythical adventures, startling visual recreations of secret conflicts, and more. Each story sheds new light on what has become the most feared alien race in the universe. With a foreword by showrunner Steven Moffat, full-color illustrations, concept art, cutaways, diagrams, comic strips and more, Doctor Who: Dalek is the ultimate celebration of all things Dalek and a must have for devoted Whovians of every age.

So if you have ever wondered if you'd cut it in the Time Lord Academy, how to fly the TARDIS, or the correct way to dip a fish finger into custard, this is the book for you! Essential reading for all aspiring Time Lords!

THE book the Time Lords (including the Doctor) read when studying at the Academy, the full-color in-world history that pieces together the true story of Gallifrey from the many and contradictory accounts that survived the Last Great Time War. Doctor Who: A Brief History of Time Lords tells the story of all of this ancient, legendary civilization, of notable historical figures, of Gallifrey itself, of the Time War and much more. The planet Gallifrey. The Shining World of the Seven Systems. Often to be found in the constellation of Kasterborous. Birthplace of one of the oldest civilizations in the universe: The Time Lords. From their technologies and strategies to the renegades like the Master and the Doctor himself, this is the definitive guide to the oldest and most powerful civilization in the universe. They invented black holes, transmits, stellar manipulators, and they atrophied. A bunch of elderly academics in funny hats, the Time Lords watched the whole history of creation. This was the civilization that inflicted some of its most renowned and deadly renegades and criminals on the universe: the Master, the Rani, the Monk, the War Chief, yet it was also the benevolent power that rid the cosmos of the Great Vampires, the Racnoss and the Fendahl. Featuring full-color, never-before-seen illustrations and a beautiful interior design, this is a highly collectible in-world companion no Whovian can be without.
