History tells us that the intelligent, wealthy, and powerful Margaret of York had everything any woman could want, except for love. The acclaimed author of *A Rose for the Crown* takes us between the lines of history and into her heart. It is 1461: Edward, son of Richard of York, ascends to the throne, and his willful sister, Margaret, immediately becomes a pawn in European politics as Edward negotiates her marriage. The young Margaret falls deeply in love with Anthony Woodville, the married brother of Edward's queen, Elizabeth. But Edward has arranged for his sister to wed Charles, son of the Duke of Burgundy, and soon Margaret is setting sail for her new life. Her official escort: Anthony Woodville. Margaret of York eventually commanded the respect and admiration of much of Europe, but it appears to history that she had no emotional intimate. Anne Easter Smith's rare gift for storytelling and her extensive research reveal the love that burned at the center of Margaret's life, adding a new dimension to the story of one of the fifteenth century's most powerful women.

Self-Help/Spirituality “ Every now and then you come across an author whose words transform your life and inspire you forever. The wisdom, insight, stories, and gentle guidance within the pages of *Stand Like Mountain* proved to be a blessing in my life. I am eternally grateful. This tenth anniversary edition not only reinvigorates the human spirit, it's a celebration of life. Timeless and ageless wisdom is never out of style on the human journey. ” --Joan Lunden, Author of *Joan Lunden's Wake-up calls* Times of stress may bring feelings of panic and mayhem, but when we call upon our inner resources, stress also provides the

opportunity for spiritual growth. However, our path to our ultimate purpose is often blocked by guilt, greed, laziness, worry, and most destructive of all: fear and anger. In his inspiring and insightful book *Stand Like Mountain, Flow Like Water*, renowned expert on stress management, Brian Luke Seaward, Ph.D., teaches you how to maneuver around these troublesome roadblocks and outlines the key to life: Balance--to stand secure and grounded like a mountain, but to flow like water. To help you reach your goals and destinations, Seaward points out that the mind, body, and spirit must be in harmony during our journey from the tumultuous sea of stress to the unfaltering rock of our spirituality. We can do so by relying on our natural-born inner resources (muscles of the soul) as our guides. This Tenth Anniversary Edition is filled with the most up-to-date insights and compelling stories regarding the mind-body-spirit connection and includes Dr. Seaward's latest stress-busting and healing strategies to help you:

- Identify your innate resources to cope effectively to stressors
- Strengthen the muscles of your soul for life's challenges
- Deepen your soul-searching process to gain personal insights
- Maintain a sense of balance and inner peace in a stressed-filled world
- Identify and transition peacefully through the Seasons of the Soul

Dr. Seaward's extensive research and teachings on the connection between stress and spirituality will soothe and harmonize your spirit and give you the tools to enhance and sustain connectedness with yourself, your purpose, and nature around you.

Building from the perspective of reproductive and developmental biology, *Computational Methods for Reproductive and Developmental Toxicology* provides a timely and comprehensive overview of approaches in reproductive and developmental toxicology. The book, which is part of the QSAR in Environmental and Health Sciences series, is divided into three broad sections. The first provides a review of methods and approaches to meet the need for safety assessments in product development and regulatory approaches for environmental chemicals. The next one reviews the biological processes and endpoints involved in reproduction and development. The final and largest section summarizes protocols for evaluating biological processes and endpoints within reproduction and development. It also discusses informatics resources and computational methods. The book takes a cross-disciplinary approach bringing together developmental, reproductive and systems biology, chemistry, toxicology, pharmacology, biostatistics, information sciences, bioinformatics, and computational approaches. This valuable resource provides those in the field with the necessary knowledge to evaluate both classic and recent approaches to characterize toxicity.

Whether you're a trembling novice or a jaded expert, there's always something new to be discovered in the endlessly changing, complex and titillating world of kink. While there are plenty of other books out there that explain how to give a spanking or tie a half-hitch, *Playing Well With Others* is the first book that explains kink \*culture\* -- the munches, parties, leather bars, conferences, workshops, fetish nights, exploratoriums and all the other gatherings of kinksters that turn BDSM and leather from a bedroom predilection to a lifestyle and a community. You'll learn to:

- Examine your own motivations, needs, wants and desires
- Ease your way into established communities
- Understand etiquette in different adventurous sex communities
- Familiarize yourself with the many types of events available to you
- Care for your relationships as you explore new territory
- Negotiate for play and aftercare
- Go back to the "world at large" without ruffling feathers
- ...and, of course, answer the all-important question: What do you wear?!

The team of Harrington and Williams offers 30-plus years of experience in diverse kink communities: top, bottom and switch; gay, bi and straight; female, male and trans; white and POC. Both former titleholders and international educators, they are an unbeatable pair of "sexual sherpas" with an inimitable voice and a great deal of wisdom. *Playing Well With Others* is an unprecedented and essential guidebook for anyone who wants to explore or understand the "community" aspect of the kink lifestyle.
