One of the Roman Empire's greatest achievements was religious tolerance, at least by modern standards. It was a world in which Fortuna and Fate ruled the minds of men and women. That world left behind a marvellous legacy of literary and archaeological records. This book attempts to unravel the wide-ranging evidence.

It was a symbol of Rome itself, the ultimate embodiment of the empire's power... But now, in the mist-shrouded Germanic forest of Tottenwald, the unthinkable has happened: A rampaging barbarian horde has crushed three of Rome's most highly skilled detachments in battle... and captured their mighty Roman eagles. His authority threatened by this all-too-public shame, the mad emperor Nero has dispatched Antonius Axia, the empire's finest "detectionner" and hero of Britannia, and Achillia, the sword-wielding champion of the gladiatorial arena, to reclaim his stolen relics at any cost. But what began as a simple mission will soon become a terrifying journey into the dark heart of belief itself as the isolated woodlands of Rome's enemies reveal unseen dimensions...and the true power of the legion's lost eagles threatens to consume any who would pursue them... Valiant's sold-out descent into the horrors of the ancient world returns with an all-new volume from legendary comics master Peter Milligan (Detective Comics) and Harvey Award-nominated artist Robert Gill (BOOK OF DEATH) as Antonius Axia, history's first detective, launches into an otherworldly mystery of monsters, magic, and conspiracy at the boundaries of human understanding... Four thousand men disappeared and their eagle standard was lost. It's a mystery that's never been solved, until now . . . Marcus has to find out what happened to his father, who led the legion. So he sets out into the unknown, on a quest so dangerous that nobody expects him to return. The Eagle of the Ninth is heralded as one of the most outstanding children's books of the twentieth century and has sold over a million copies worldwide. Rosemary Sutcliff's books about Roman Britain have won much acclaim. The author writes with such passion and with such attention to detail that the Roman age is instantly brought to life and stays with the reader long after the last page has been turned.

For the Romans, Britannia lay beyond the comfortable confines of the Mediterranean world around which classical civilisation had flourished. Britannia was felt to be at the outermost edge of the world itself, lending the island an air of dangerous mystique. To the soldiers crossing the Oceanus Britannicus in the late summer of AD 43, the prospect of invading an island believed to be on its periphery must have meant a mixture of panic and promise. These men were part of a formidable army of four veteran legions (II Augusta, VIII Hispana, XIII Gemina, XX Valeria), which had been assembled under the overall command of Aulus Plautius Silvanus. Under him were, significantly, first-rate legionary commanders, including the future emperor Titus Flavius Vespasianus. With the auxiliary units, the total invasion force probably mounted to around 40,000 men, but having assembled at Gessoriacum (Boulogne) they refused to embark. Eventually, the mutinous atmosphere was dispelled, and the invasion fleet sailed in three contingents. So, ninety-seven years after Caius Iulius Caesar, the Roman army landed in south-eastern Britannia. After a brisk summer campaign, a province was established behind a frontier zone running from what is now Lyme Bay on the Dorset coast to the Humber estuary. Though the territory overrun during the first campaign season was undoubtedly small, it laid the foundations for the Roman conquest which would soon begin to sweep across Britannia. In this highly illustrated and detailed title, Nic Fields tells the full story of the invasion which established the Romans in Britain, explaining how and why the initial Claudian invasion succeeded and what this meant for the future of Britain.

are the stories of the people who built and ruled Roman Britain, from the eagle-bearer who leaped off Caesar's ship into the waves at Walmer in 55BC to the last cavalry units to withdraw from the island under their dragon standards in the early fifth century AD. Through the lives of its generals and governors, this book explores the narrative of Britannia as an integral and often troublesome part of Rome's empire, a hard-won province whose mineral wealth and agricultural prosperity made it crucial to the stability of the West. But Britannia did not exist in a vacuum, and the authors set it in an international context to give a vivid account of the pressures and events that had a profound impact on its people and its history. The authors discuss the lives and actions of the Roman occupiers against the backdrop of an evolving landscape, where Iron Age shrines were replaced by marble temples and industrial-scale factories and granaries sprang up across the countryside.

In this first book of a new historical fiction series, a crack Roman legion invades Britain in this brazen tale of military adventure, political intrigue and heroism. It is the year 42 AD, and Centurion Macro, battle-scarred and fearless, is in the heart of Germany with the Second Legion, the toughest in the Roman army. Cato, a new recruit and the newly appointed second-in-command to Macro, will have more to prove than most. In a bloody skirmish with local tribes, Cato gets his first chance to prove that he's more than a callow, privileged youth. As their next campaign takes them to a land of unparalleled barbarity - Britain - a special mission unfolds, thrusting Cato and Macro headlong into a conspiracy that threatens to topple the Emperor himself. Filled with the kind of historical details that brings the adventure to life, Simon Scarrow's *Under the Eagle* is destined to become a military fiction classic.

IF YOU DON'T KNOW SIMON SCARROW, YOU DON'T KNOW ROME! *THE BLOOD CROWS* is the unputdownable twelfth novel in Simon Scarrow's bestselling *Eagles of the Empire* series. A must read for fans of Bernard Cornwell. Praise for Simon Scarrow's gripping novels: 'Ferocious and compelling' *Daily Express* *Britannia*, AD 51. For nearly a decade, the Roman Empire has fought to assert its hold over Britannia. But relentless opposition from native tribes led by the fanatical King Caratacus threatens to destroy everything. Prefect Cato and Centurion Macro are dispatched from Rome to aid the campaign. Placed in command of an outpost in the remote western mountains, they face a challenge even more deadly than the unremitting attacks of barbarian forces. For they must wrench control of the fort from Centurion Quertus, a man who wages a savage personal war and inspires a loyalty in his men above their bond with Rome. With dangerous enemies on both sides, Cato and Macro face the fight of their lives to bring peace to the most perilous frontier in Europe.
