As we see a shift of old forms that were once the foundations of our daily lives, parents--who must prepare the next generation to meet the changing world--have more questions today than ever before. Although our cultural values and family structures may change, it is the atmosphere in the home that continues to form the foundation of a child's life. In *Heaven on Earth*, parent and educator Sharifa Oppenheimer reveals how parents can make the home environment warm, lively, loving, and consistent with their highest ideals. *Heaven on Earth* balances a theoretical understanding of child development with practical ideas, resources, and tips that can transform family life. Readers will learn how to create the

regular life rhythms needed to establish a foundation for learning; how to design indoor play environments that allow children the broadest development of skills; and how to create outdoor play spaces that encourage vigorous movement and a wide sensory palette. Through art, storytelling, and the festival celebrations, this book is an invaluable guide to building a "family culture" based on the guiding principle of love--a culture that supports children and encourages the free development of each unique soul. Sharifa Oppenheimer offers a gift from the heart. Heaven on Earth is a practical, inspiring resource that brings the author's informed, intuitive understanding of young children into the heart of the home. "Sharifa Oppenheimer has given the world a great gift in the pages of this book. The important child-

development information is exquisitely combined with the best 'How-to's' I have seen in any book for parents. Her book, is a ready guide that insures joyful, enthusiastic children who learn easily and contribute to their families and society for a lifetime. I have delighted in every page and feel this is absolutely A must read for parents, grandparents, teachers, and perhaps everyone who will ever touch the life of a child."

--Carla Hannaford, Ph.D., biologist and international educational consultant to 32 countries and author of Smart Moves: Why Learning Is Not All in Your Head and Awakening the Child Heart, Handbook for Global Parenting "This delightful book will be a wonderful resource for parents. They will certainly appreciate its warm, friendly, personal, and reassuring tone. I would have loved such a book when I was

a young mother! For those whose children already attend Waldorf programs, it provides a helpful resource for creating a bridge between home and kindergarten. For others, this lovely book offers wonderful glimpses into the wise and nurturing practices of Waldorf early childhood education. In a world where childhood is increasingly 'media'ted and 'adult'erated, this book offers much-needed support for the protection of childhood. " --Susan Howard, chairperson, Waldorf Early Childhood Association of North America and coordinator, International Association for Steiner/Waldorf Early Childhood Education "Being a parent is a challenging assignment, but with the help of Sharifa Oppenheimer's book, *Heaven on Earth*, our work immediately becomes easier. This book is both heartfelt and practical. It offers sound parenting

and foods in healing will also find much to learn here, as I have. . . . A fine work.”—Annemarie Colbin, author of *Food and Healing* The promise and mystery of Chinese medicine has intrigued and fascinated Westerners ever since the “Bamboo Curtain” was lifted in the early 1970s. Now, in *Between Heaven and Earth*, two of the foremost American educators and healers in the Chinese medical profession demystify this centuries-old approach to health. Harriet Beinfeld and Efrem Korngold, pioneers in the practice of acupuncture and herbal medicine in the United States for over eighteen years, explain the philosophy behind Chinese medicine, how it works and what it can do. Combining Eastern traditions with Western sensibilities in a unique blend that is relevant today, *Between Heaven and Earth* addresses

three vital areas of Chinese medicine—theory, therapy, and types—to present a comprehensive, yet understandable guide to this ancient system. Whether you are a patient with an aggravating complaint or a curious intellectual seeker, *Between Heaven and Earth* opens the door to a vast storehouse of knowledge that bridges the gap between mind and body, theory and practice, professional and self-care, East and West. “Groundbreaking . . . Here at last is a complete and readable guide to Chinese medicine.”—San Francisco Chronicle

Offering a fully integrated, systems-based approach to physical geography, the new Third Edition of Alan and Arthur Strahler's highly successful text incorporates relevant and

many pictures of Earth from above as Terry Virts. Celebrated NASA astronaut, pilot of the space shuttle, crew member on Soyuz, and commander of the International Space Station, Virts has spent more than 200 days in space-and very few of those days went by without his reaching for his camera. Now as never before, Virts shares the astronaut's view of the world, offering astounding aerial views of our planet and the vastness that surrounds it. The colors, shapes, details-and the stories they tell-are endlessly fascinating. Virts's book marries his stunning photographs with glimpses of everyday life in orbit. And amid this amazing show of Earth spectacles, he reflects on how the astronaut's point of view has shaped his life and spirit. Filled with magnificent photographs that will astonish and inspire, this book-and its intrepid author-

becomes our guide to a new way of looking at the world.

A stunning and unique collection of satellite images of Earth that offer an unexpected look at humanity, derived from the wildly popular Daily Overview Instagram project. Inspired by the “Overview Effect”—a sensation that astronauts experience when given the opportunity to look down and view the Earth as a whole—the breathtaking, high definition satellite photographs in OVERVIEW offer a new way to look at the landscape that we have shaped. More than 200 images of industry, agriculture, architecture, and nature highlight incredible patterns while also revealing a deeper story about

human impact. This extraordinary photographic journey around our planet captures the sense of wonder gained from a new, aerial vantage point and creates a perspective of Earth as it has never been seen before.

Art Wolfe's immersive photos capture the wonder humans have felt about trees for millennia. From the ancient Assyrian Tree of Life to the Iroquois peoples' Tree of Peace, trees have played an archetypal role in human culture and spirituality since time immemorial. An integral part of a variety of faiths—from Buddhism and Hinduism to Nordic and aboriginal religions—trees were venerated long before any written historical records existed. This sense of reverence and wonder is beautifully evoked in these vivid images from

legendary photographer Art Wolfe. The new, giftable format of his celebrated book on the topic, *Trees*, focuses on both individual specimens and entire forests, offering a sweeping yet intimate look at an arboreal world that spans six continents. To accompany these timeless images, author Gregory McNamee weaves a diverse and global account of the myths, cultures, and traditions that convey the long-standing symbiosis between trees and humans, and renowned ethnobotanist Wade Davis anchors the text with a penetrating introduction. Humans have always shared this planet with trees, and this book is both a breathtaking journey through and an homage to that relationship and its past, present, and future—now in a new, beautiful, and highly giftable format.
