This book is a complete guide to the diagnosis and management of ENT diseases for undergraduate medical students and trainees in otolaryngology. Divided into nine sections, the text begins with an overview of the anatomy and physiology of each part of the otolaryngologic system and explains bacteria, antibiotics, fungi and viruses, and HIV. The following sections cover numerous diseases and disorders in each otolaryngologic region – ear, nose and sinuses, oral cavity and salivary glands, pharynx and oesophagus, larynx, trachea and bronchus; and neck. The final chapters discuss surgical procedures, imaging, radio- and chemotherapy, anaesthesia, and laser surgery. The second edition has been fully revised to provide students with the latest information, and features many new topics, including a clinical highlights section to assist preparation for examinations, and a comprehensive appendix of 101 clinical secrets, problem-oriented clinical cases, and miscellaneous key points. The book is accompanied by a complimentary online resource featuring the full text as an ebook, MCQs with image-based questions, live surgery videos, and animation. Key points Fully revised, second edition providing comprehensive guide to ENT diseases Includes clinical highlights section and comprehensive appendix to assist with exam preparation Accompanied by free online resource featuring ebook, MCQs, and surgical videos Previous edition (9789350259436) published in 2012

A beautifully illustrated monograph with 163 color photographs, is one of the very few books to focus on the ENT patient in clinical methods.

The Handbook of ENT, authored by Dr. K. K. Sharan is a very comprehensive book that covers important topics regarding the diseases of ear, nose and throat regions quite elaborately. Throughout the book, he has discussed the intricacies of otorhinolaryngology with great sophistication yet simple presentation and lucid design. The author has described the diseases of the region and started with the scheme and manner of examination, diagnosis and treatment. His discussion of Otorhinolaryngology is scholarly and will help ENT practitioners in examination, diagnosis and treatment of diseases of ear with greater competence and insight. On rhinology, he has outlined many ailments of nose like mid-line granuloma, diseases of paranasal and frontal sinuses, nasal polyp etc. and its management. His exercise on rhinology will definitely add to the field of knowledge on the subject. On oropharynx, laryngopharynx and larynx, the book deals with ailments like acute follicular tonsillitis, chronic tonsillitis, carcinoma of tonsils, stridor, hoarseness of voice, etc. and will be very useful for undergraduate as well as post-graduate students and quite an addition for ENT surgeons dealing with complications and ailments of laryngeal region. His discussion on salivary and pituitary glands is masterly. Surgical procedures like Septoplasty, Tracheostomy and Mastoidectomy have been discussed in detail.

Reflecting author's experience as a teacher, guide and examiner this book is primarily for the MBBS students to face the practical examination and viva; however, it is also useful for the students pursuing MD/DNB (Community Medicine), MPH, DPH and other relevant disciplines.
