research analyses the extent to which sustainability at a festival can be managed and how desirable behaviour can be communicated and established. With decreasing profits through record sales, artists increasingly depend on live performances and touring. As it is common knowledge that big music

Online Library Event Planning Research At

festivals often harm the environment, visitors expect event organizers to comply with sustainable measures. Festival managers are, however, restricted in their implementation of eco-friendly practices, as an event is dependent on the interaction of many stakeholders. Music festivals offer a unique opportunity for event managers to attempt to influence attendee's behaviour to be more sustainable through their diversity and playfulness. By creating the appropriate framework, festival creators can shift a festival towards sustainability. To do that, they must understand their stakeholders' values, motivators, drivers, and barriers of greening an outdoor music festival. This

Online Library Event Planning Research At

paper is based on data derived from existing research and literature in the fields of event management, sustainability, sociology and behavioural research. It illustrates basic greening approaches along with the operational limits of event organizers.
