This textbook, originally by D. Annand and H. Dauderis, was intended for a first course in introductory financial accounting. It focuses on core introductory financial accounting topics that match pre-requisite requirements for students advancing to Intermediate Financial Accounting. A corporate approach is utilized versus beginning with a sole proprietorship emphasis and then converting to a corporate approach; this consistency throughout the book reduces confusion for the introductory student. This most recent revision by D. Marchand converted the text from IFRS to reflect the Generally Accepted Accounting Principles of the United States (U.S. GAAP).

The success of every business in the hospitality industry depends on maximizing revenues and minimizing costs. This Ninth Edition continues its time-tested presentation of fundamental concepts and analytical techniques that are essential to taking control of real-world accounting systems, evaluating current and past operations, and effectively managing finances toward increased profits. It offers hands-on coverage of computer applications and practical decision-making skills to successfully prepare readers for the increasingly complex and competitive hospitality industry.

Financial Accounting and Reporting is the most up to date text on the market. Now fully updated in its fourteenth edition, it includes extensive coverage of International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS). This market-leading text offers students a clear, well-structured and comprehensive treatment of the subject. Supported by illustrations and exercises, the book provides a strong balance of theoretical and conceptual coverage. Students using this book will gain the knowledge and skills to help them apply current standards, and critically appraise the underlying concepts and financial reporting methods.

The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a reliable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

This edition of Monetary and Financial Statistics Manual and Compilation Guide (Manual) updates and merges into one volume methodological and practical aspects of the compilation process of monetary statistics. The Manual is aimed at compilers and users of monetary data, offering guidance for the collection and analytical presentation of monetary statistics. The Manual includes standardized report forms, providing countries with a tool for compiling and reporting harmonized data for the central bank, other depository corporations, and other financial corporations.

This volume provides a foundation in digital accounting by covering such fundamental topics as accounting software, XBRL (eXtensible Business Reporting Language), and EDI. The effects of the Internet and ERP on accounting are classified and presented for each accounting cycle, along with a comprehensive discussion of online controls.

This book explores new topics in modern research on empirical corporate finance and applied accounting, especially the econometric analysis of microdata. Dubbed " financial microeconometrics " by the author, this concept unites both methodological and applied approaches. The book examines how quantitative methods can be applied in corporate finance and accounting research in order to predict companies getting into financial distress. Presented in a clear and straightforward manner, it also suggests methods for linking corporate governance to financial performance, and discusses what the determinants of accounting disclosures are. Exploring these questions by way of numerous practical examples, this book is intended for researchers, practitioners and students who are not yet familiar with the variety of approaches available for data analysis and microeconometrics. " This book on financial microeconometrics is an excellent starting point for research in corporate finance and accounting. In my view, the text is positioned between a narrative and a scientific treatise. It is based on a vast amount of literature but is not overloaded with formulae. My appreciation of financial microeconometrics has very much increased. The book is well organized and properly written. I enjoyed reading it." Wolfgang Marty, Senior Investment Strategist, AgaNola AG

Study & Master Accounting Grade 10 has been especially developed by an experienced author team according to the Curriculum and Assessment Policy Statement (CAPS). The comprehensive Learner's Book includes: * case studies which deal with issues related to the real world, and move learners beyond the confines of the classroom * margin notes to assist learners with new concepts - especially GAAP flashes, that give learners guidance on General Accepted Accounting Practice * examples with solutions after the introduction of each new concept. The Teacher's File includes: * a daily teaching plan, divided into the four terms, that guides the teacher on what to teach per day and per week * moderation templates to assist teachers with assessment * solutions to all the activities in the Learner's Book. The CD-Rom with a PowerPoint presentation includes: * interactive examples to explain new concepts * links to all solutions to activities and assessments in the Learner's Book
