Mastering the Fujifilm X-Pro 1 provides a wealth of experienced-based information and insights for owners of the new X-Pro 1 camera. Readers will learn about the features and capabilities of the X-Pro 1 and will discover numerous tips and tricks for how to maximize its potential. With the X-Pro 1, Fujifilm released the first mirrorless camera with an APS-C sensor. The successful combination of high-end retro design and state-of-the-art digital camera technology, originally seen in the X100 viewfinder camera, has been pushed even further to achieve this interchangeable-lens camera. The X-Pro 1 offers three FUJINON interchangeable lenses. In a layout suitable to the camera's attractive design, this manual presents imagery that attests to the fun you will have as you begin to push the envelope of your Fujifilm X-Pro 1.

"Boldly sensual and richly emotional." Booklist "Hot and compelling!" —???????NYT Bestselling Author Madeline Hunter From USA TODAY Bestselling author Terri Brisbin. . . While magic still glimmered over the lands and people of Scotland and the Vikings ruled the western islands and the north, three brothers struggle against their fate to overcome a dreaded curse tied to their own Fae powers. Their hearts, souls, and very lives depend on the women they betrayed. Connor has the ability to see the past, present, and future and uses his gift for the benefit of his wealthy patron. But, it comes at a high price—his power first blinds him and then will kill him. . . if the woman intent on his death doesn't get to him first. She claims he destroyed her family, but he only knows relief and pleasure when she is with him. Moira has lived to avenge her family's destruction that the Seer caused. But captured and made his prisoner, she discovers he is not what he seems and yet is so much more. As she watches his dark power control him, Moira also finds a sensuality that draws her closer and closer and tempts her to put aside her vengeance. As darkness and danger gather around them and the curse of his Fae father reaches its deadly conclusion, will Connor and Moira find the love that could save them both? This dark, emotional and steamy fantasy romance series set in medieval Scotland was previously published by Kensington Books in their Brava imprint and is now re-released by the author.

Rhiannon Thomas's dazzling debut novel is a spellbinding reimagining of what happens after happily ever after. Vividly imagined scenes of action, romance, and political intrigue are seamlessly woven together to reveal a richly created world. . . . and Sleeping Beauty as she's never been seen before. One hundred years after falling asleep, Princess Aurora wakes up to the kiss of a handsome prince and a broken kingdom that has been dreaming of her return. All the books say that she should be living happily ever after. But as Aurora understands all too well, the truth is nothing like the fairy tale. Her family is long dead. Her "true love" is a kind stranger. And her whole life has been planned out by political foes while she slept. As Aurora struggles to make sense of her new world, she begins to fear that the curse has left its mark on her, a fiery and dangerous thing that might be as wicked as the witch who once ensnared her. With her wedding day drawing near, Aurora must make the ultimate decision on how to save her kingdom: marry the prince or run.

If you need a starting point for designing your first data center, regardless of size; if you need to prepare yourself with comprehensive strategies to retrofit or improve an existing one; or if you need proven methods to manage a data center for maximum productivity this book is your readily accessible, comprehensive resource for answers and insights. Invest in the best future for your business by learning how to build and manage robust and productive data centers now. This book is part of the Networking Technology Series from Cisco Press which offers networking professionals valuable information for constructing efficient networks, understanding new technologies, and building successful careers.

An interdisciplinary and quantitative account of human claims on the biosphere's stores of living matter, from prehistoric hunting to modern energy production. The biosphere--the Earth's thin layer of life--dates from nearly four billion years ago, when the first simple organisms appeared. Many species have exerted enormous influence on the biosphere's character and productivity, but none has transformed the Earth in so many ways and on such a scale as Homo sapiens. In Harvesting the Biosphere, Vaclav Smil offers an interdisciplinary and quantitative account of human claims on the biosphere's stores of living matter, from prehistory to the present day. Smil examines all harvests--from prehistoric man's hunting of megafauna to modern crop production--and all uses of harvested biomass, including energy, food, and raw materials. Without harvesting of the biomass, Smil points out, there would be no story of human evolution and advancing civilization; but at the same time, the increasing extent and intensity of present-day biomass harvests are changing the very foundations of civilization's well-being. In his detailed and comprehensive account, Smil presents the best possible quantifications of past and current global losses in order to assess the evolution and extent of biomass harvests. Drawing on the latest work in disciplines ranging from anthropology to environmental science, Smil offers a valuable long-term, planet-wide perspective on human-caused environmental change.

Assembly Language for x86 Processors, 6/e is ideal for undergraduate courses in assembly language programming and introductory courses in computer systems and computer architecture. Written specifically for the Intel/Windows/DOS platform, this complete and fully updated study of assembly language teaches students to write and debug programs at the machine level. Based on the Intel processor family, the text simplifies and demystifies concepts that students need to grasp before they can go on to more advanced computer architecture and operating systems courses. Students put theory into practice through writing software at the machine level, creating a memorable experience that gives them the confidence to work in any OS/machine-oriented environment. Proficiency in one other programming language, preferably Java, C, or C++, is recommended.

Written and edited by some of the world's leading entrepreneurship academics, this anniversary volume showcases three of the most influential chapters from the series, along with author reflections, as well as new papers showing how these classic ideas connect and energize leading-edge contemporary research in entrepreneurship and related fields.

I'M PREGNANT, ON THE RUN, AND WEARING HIS RING... HANNAH How the hell did I get here? Oh, right - Daniel "Dust" Grayson. Scariest, sexiest man alive. The only man who's ever stolen my panties, lured me into his bed, and left me begging for more. This isn't what you're thinking. Yes, he's an outlaw. Trouble incarnate on two towering legs and the hottest smirk south of the Mason-Dixon line. But I'm not in a world of hurt because he's President of the Deadly Pistols MC, or because my big brother is his right hand man - hello, drama! No, Dust tried to save me from myself. I can't let my secrets kill him. It's time to forget everything: his love, his kisses, raising the baby he'll never know together. Never wed an outlaw. A broken heart was my wedding present, and now it's my only defense... DUST Hannah was my biggest mistake. Ain't every day a man claims a girl, shoves his ring on her finger, and tells her she's his 'til the end of time. I had it all, blind to the storm approaching. Then she disappeared. She forgot about us. I'll die before I let her. Darlin', I'm coming. Don't care if my best friend is her kin, and he wants to rip my head off. Don't care if she's a hostage to the meanest crew I ever laid eyes on. Don't care if I have to move heaven, hell, and everything in between to bring her home. If Hannah's a mistake, I'm owning up. Every single inch of her, every kiss, every damned day. She made me crave the whole package, a wife and kids, like a man needs air. I can't stop. I won't go back. She's coming back to my arms, or I'll rip this wicked world limb from limb.
