Prepares you for the Fire Inspector I & II certification, promotion, or training examination. Your exam performance will improve after using this system!

The Building Plan Examiner Passbook(R) prepares you for your test by allowing you to take practice exams in the subjects you need to study. It provides hundreds of questions and answers in the areas that will likely be covered on your upcoming exam, including but not limited to: building construction and rehabilitation; understanding building plans and requirements; zoning laws and codes; structural, electrical and HVAC components; office record keeping; and more.

Designed to thoroughly prepare you for a Fire Department Safety Officer certification, promotion, or training examination.

The outcome of a fire review can greatly impact the internal fire and life safety features, as well as the architectural design of a building. An insider's guide for both novice and expert, Fire Protection Approaches in Site Plan Review provides the framework needed to design and evaluate a successful site plan for review. This book outlines the co

The Complete Fire Inspector I and II Training Solution! Fire inspectors need to know how to interpret and apply national and local codes and standards in the office and in the field. Fire Inspector: Principles and Practice is designed to prepare fire inspectors to ensure the highest standards of fire and life safety in their communities. The National Fire Protection Association (NFPA) and the International Association of Fire Chiefs (IAFC) are pleased to bring you Fire Inspector: Principles and Practice, a modern integrated teaching and learning system for the fire inspector. This textbook meets and exceeds the job performance requirements for level I and II fire inspectors from Chapters 4 and 5 of NFPA 1031, Standard for Professional Qualifications for Fire Inspector and Plan Examiner, 2009 Edition. Fire Inspector: Principles and Practice is built on a solid foundation of the basics: building construction, fire growth, and types of occupancies. This fundamental knowledge is presented in a concise, understandable writing style that is easy to digest and recall. The solid foundation of fire and building knowledge then branches out to show the fire inspector how abstract concepts and codes will be concretely applied on a daily basis. This is the text that truly prepares fire inspectors for the real world.

This UPDATED manual is for fire department staff and others who review plans for compliance with fire and building codes to ensure public safety in the built environment. Content in this book is appropriate for any plan examiners in fire prevention divisions, fire marshal bureaus, building departments and community risk reduction organizations. The 15 chapters in this book present material that meets the job performance requirements (JPRs) of Plan Examiner I and II according to the NFPA 1031: Professional Qualifications for Fire Inspector and Plan Examiner (2014). Plan Examiner II requires an in-depth review of sprinkler and fire alarm shop drawings and these are not included in this book. Four hundred and twenty key terms and definitions are highlighted throughout the book and are included in the glossary. The book features updated photos and illustrations. A sample set of blueprints are referenced in the book and are available to purchase in a package with the text. This text book is used frequently in higher education classes as well as courses to meet the requirements for fire service professional qualifications certification. The author is Ed Prendergast a well-respected Fire Protection Engineer. He retired from the Chicago Fire Department as the Chief Engineer of the Bureau of Fire Prevention after 30 years of service. He is a graduate of the Illinois Institute of Technology with degrees in Industrial and Mechanical Engineering. As a professional engineer, Mr. Prendergast serves as a member of the Society of Fire Protection Engineers. He is a principal member of the National Fire Protection Association technical committee on standpipes. Mr. Prendergast is an instructor in Fire Science with the City Colleges of Chicago. He is also forensic engineer with Wolf Technical Services of Indianapolis.
