Leading landscape photographers Diane Cook and Len Jenschel present *Wise Trees*—a stunning photography book containing more than 50 historical trees with remarkable stories from around the world. Supported by grants from the Expedition Council of the National Geographic Society, Cook and Jenschel spent two years traveling to fifty-nine sites across five continents to photograph some of the world's most historic and inspirational trees. Trees, they tell us, can live without us, but we cannot live without them. Not only do trees provide us with the oxygen we breathe, food gathered from their branches, and wood for both fuel and shelter, but they have been essential to the spiritual and cultural life of civilizations around the world. From Luna, the Coastal Redwood in California that became an international symbol when activist Julia Butterfly Hill sat for 738 days on a platform nestled in its branches to save it from logging, to the Bodhi Tree, the sacred fig in India that is a direct descendent of the tree under which Buddha attained enlightenment, Cook and Jenschel reveal trees that have impacted and shaped our lives, our traditions, and our feelings about nature. There are also survivor trees, including a camphor tree in Nagasaki that endured the atomic bomb, an American elm in Oklahoma City, and the 9/11 Survivor Tree, a Callery pear at the 9/11 Memorial. All of the trees were carefully selected for their role in human dramas. This project both reflects and inspires awareness of the enduring role of trees in nurturing and sheltering humanity. Photographers, environmentalists, history buffs, and nature-lovers alike will appreciate the extraordinary stories found within the pages of *Wise Trees*!

women behind Studio Choo, the hottest floral design studio in the country, have created a flower-arranging bible for today's aesthetic. Filled with an array of stunning, easy-to-find flowers, it features 400 photos, more than 40 step-by-step instructions, and useful tips throughout. The arrangements run the gamut of styles and techniques: some are wild and some are structured; some are time-intensive and some are astonishingly simple. Each one is paired with a "flower recipe"; ingredients lists specify the type and quantity of blooms needed; clear instructions detail each step; and hundreds of photos show how to place every stem. Readers will learn how to work with a single variety of flower to great effect, and to create vases overflowing with layered blooms. To top it off, the book is packed with ideas for unexpected vessels, seasonal buying guides, a source directory, a flower care primer, and all the design techniques readers need to know. Alethea Haramopolis and Jill Rizzo are the founders of Studio Choo, a San Francisco-based floral design studio that serves up fresh, wild, and sophisticated flower arrangements for any occasion. Their work has been featured in publications such as *Sunset*, *Food & Wine*, and *Veranda* and in the blog *Design*Sponge*.
