quest to discover who her father really was - and reunite with Winnifred - will be an adventure like no other. Excerpt: Winnifred is old. She might be three hundred. She came with the apartment. The previous tenant, a rock climber named Cliff, was embarking on a rock-climbing adventure that would not have been much fun for Winnifred. Back then her name was Iris. Cliff had inherited Iris from the previous tenant. Nobody knew how old Iris was or where she had come from originally. Now Cliff was moving out. He said, Would you like a tortoise. I would not say no to a tortoise, I said. I was alone in Portland and the trees were giant. I picked her up and she blinked at me with her upside-down eyelids. I felt instantly calm. Her eyes were soft brown. Her skin felt like an old elbow. I will build you a castle, I whispered. With a pool. And I was true to my word.

"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.
