Based on Evan Wright's National Magazine Award-winning story in Rolling Stone, this is the raw, firsthand account of the 2003 Iraq invasion that inspired the HBO® original mini-series. Within hours of 9/11, America's war on terrorism fell to those like the twenty-three Marines of the First Recon Battalion, the first generation dispatched into open-ended combat since Vietnam. They were a new pop-culture breed of American warrior unrecognizable to their forebears—soldiers raised on hip hop, video games and The Real World. Cocky, brave, headstrong, wary and mostly unprepared for the physical, emotional and moral horrors ahead, the “First Suicide Battalion” would spearhead the blitzkrieg on Iraq, and fight against the hardest resistance Saddam had to offer. Hailed as “one of the best books to come out of the Iraq war” (Financial Times), Generation Kill is the funny, frightening, and profane firsthand account of these remarkable men, of the personal toll of victory, and of the randomness, brutality and camaraderie of a new American War.

Generation Kill is about the young men sent to fight their nation's first open-ended war since Vietnam. Despite the flurry of media images to come of the recent wars in Afghanistan and Iraq, you have never really met any of these people, who serve as front-line troops. For whatever reason, the media simply doesn't get them. As we all know, news accounts of the last two wars focused almost exclusively on battlefield imagery of high-tech weapons wreaking astounding destruction, comply with analysis from retired army grandees and other experts, punctuated by the odd heart-warming patriotic sound-bite. The troops themselves play a role in the media's presentation of recent wars rather like extras in The Triumph of the Will. They are everywhere yet somehow invisible. When they speak you get the sense that what they are saying has been carefully scripted. Now Generation Kill tells the soldiers' story in their own words. The narrative focuses on a platoon of 23 marines, many of them veterans of Afghanistan, whose elite reconnaissance unit spearheaded the blitzkrieg on Iraq. This is the story of young men that have been trained to become ruthless killers. It's about surviving death. It's about taking part in a war many questioned before it even began. Evan Wright was the only reporter with First Recon, which operated well ahead of most other forces, usually behind enemy lines. They were among the first marines sent into the fight and one of the last units still engaged on the outskirts of Iraq, even after the city centre fell. Generation Kill is not just a combat chronicle but an inside look at how people fighting in war actually experience it. It is both an action narrative like Black Hawk Down and a detailed portrait of a generation at war along the lines of Band of Brothers. It is not a book you are going to forget in a hurry...

Read Evan Wright's posts on the Penguin Blog. The New York Times bestselling author of Generation Kill immerses himself in even more cultures on the edge. Evan Wright's affinity for outsiders has inspired this deeply personal journey through what he calls "the lost tribes of America." A collection of previously published pieces, Hella Nation delivers provocative accounts of sex workers in Porn Valley, a Hollywood über-agent-turned-war documentarian and hero of America's far right, runaway teens earning corporate dollars as skateboard pitchmen, radical anarchists plotting the overthrow of corporate America, and young American troops on the hunt for terrorists in the combat zones of the Middle East

An ex-Marine captain shares his story of fighting in a Recon battalion in Afghanistan and Iraq, beginning with his training at Quantico and following his experiences in the deadliest conflicts since the Vietnam War.

The true story of super-criminal Jon Roberts, star of the documentary Cocaine Cowboys. American Desperado is Roberts' no-holds-barred account of being born into Mafia royalty, witnessing his first murder at the age of seven, becoming a hunter-assassin in Vietnam, returning to New York to become--at age 22--one of the city's leading nightclub impresarios, then journeying to Miami where in a few short years he would rise to become the Medellin Cartel's most effective smuggler. But that's just half the tale. The roster of Roberts' friends and acquaintances reads like a Who's Who of the latter half of the 20th century and includes everyone from Jimi Hendrix, Richard Pryor, and O.J. Simpson to Carlo Gambino, Meyer Lansky, and Manuel Noriega. Nothing if not colorful, Roberts surrounded himself with beautiful women, drove his souped-up street car at a top speed of 180 miles per hour, shared his bed with a 200-pound cougar, and employed a 6"6" professional wrestler called "The Thing" as his bodyguard. Ultimately, Roberts became so powerful that he attracted the attention of the Republican Party's leadership, was wooed by them, and even was co-opted by the CIA for which he carried out its secret agenda. Scrupulously documented and relentlessly propulsive, this collaboration between a bloodhound journalist and one of the most audacious criminals ever is like no other crime book you've ever read.

The star of HBO's Generation Kill and the real-life warrior from the New York Times bestseller presents his empowering philosophy. In his publishing debut, Rudy Reyes introduces his warrior philosophy of "Hero Living": part Homer, part Joseph Campbell, part Bruce Lee, and part Spider-Man. He outlines the various stages in the journey to bring forth the hero within: recognizing the hero's call, following the hero's path, and returning from the battlefield with the hero's hard-earned wisdom. Taking readers step-by-step through his program, Reyes draws from his own heroic story of how he triumphed over his harrowing childhood experiences of poverty and abandonment. Rather than giving up hope, he heeded the hero's call to live up to his full potential--first as a martial-arts champion, then as an elite warrior in the mountains of Afghanistan and sands of Iraq, and finally in his post-Marines life as a personal trainer, actor, and motivational speaker.

Profiles Marine Carlos Hathcock, an ace marksman, whose missions during the Vietnam War included assassinating a North Vietnamese.

A harrowing yet inspiring portrait of a tormented consciousness struggling for reconciliation and peace, JARHEAD is authentic, revelatory and brilliantly crafted. Anthony Swofford's grandfather fought in WWII; his father fought in Vietnam; and he - a directionless, testosterone-battered teenager - became a scout/sniper in the marines and fought in the Gulf War. His account of that time is also part of a lineage - after Wilfred Owen, Norman Mailer, Michael Herr and Tim O'Brien, it brings the raw and searing tradition of soldiers' stories up to date.

At the end of the First World War, there were 270,000 demobilised Australian soldiers in Europe. Getting them home after the Armistice was a task of epic proportions that would take more than two years. In the meantime, how to keep these disgruntled, damaged men with guns occupied? In a word: sport. The Oarsmen tells the story of the servicemen who survived the war to row for the coveted King's Cup at the 1919 Royal Henley Peace Regatta. Competing against crews from the US, New Zealand, France, the UK and Canada, the Australians were a ragtag bunch of oarsmen thrown in an old-fashioned boat and expected to race. Many had seen the worst of the action during the war at Gallipoli and the Western Front, and carried scars both physical and psychological. The baggage they brought to the boat would soon threaten to capsize the whole endeavour. Combining first-hand accounts with lively prose, this never-before-told story approaches the First World War from peacetime and illuminates history in vivid and compelling detail. Interweaving the soldiers' personal stories from before, during and after the war, The Oarsmen paints a fascinating picture of how these men, and society, transitioned from an unprecedented war to a new sort of peace.
