This study provides a detailed snapshot of the education sector up to 2001-02, and for some aspects of the sector, up to 2002-03. It takes advantage of administrative data and information from household surveys to document key dimensions of the sector, particularly primary and secondary education, focusing on costs, finance, and service delivery, and their impact on learning achievement, in an effort to discover potentially important areas for further policy development. --foreword.

This book discusses reforms that should be undertaken in secondary education to support Ethiopia's transition from a low- to middle-income economy. The most critical reform identified is the introduction of a flexible curriculum that serves the needs of all students, including those who may not pursue higher education.
