Children's nurses must develop the crucial skills of correct medicines management and calculations in order to provide safe care to their patients. This book specifically supports pre-registration students in meeting the required competencies for medicines management needed to pass formal assessment and qualify as a children's nurse. It is clearly structured around the NMC Essential Skills Clusters for medicines management, covering legal aspects, drugs calculations, administration, storage, record keeping, introductory pharmacology, patient communication and contextual issues in medication. The book is written in user-friendly language and uses patient scenarios to explain concepts and apply theory to practice.

The student workbook covers the same people as the teaching activities manual. Each biblical figure has a puzzle for the young person to work with that guarantees that they have the basics of the story down, encouraging them to read about each person. A second page has a short introduction to the character that explains their place in salvation history. This page also contains reflection questions for the young people to consider as they make connections between this biblical figure and their own lives.
