book, you will find methods and insights to help you identify your unique calling in life, a method of achieving true happiness, and a means of becoming holy. This book is quickly becoming a popular approach to finding comfort during these current times of stress and despair, while instilling hope and teaching practical methods that can be quickly applied to one's life to enhance a feeling of safety, security, and peace. This wonderful book uses key Christian concepts to support an effective approach to modern issues. * The proceeds from the sale of this book will go to the Family Mission Project. The Family Mission Project is an organization that strives to motivate and assist members of our Christian Faith to embrace missionary life through short-term pilgrimages to underdeveloped countries.

'Take care of yourself.' It's an encouragement we offer freely to others but often withhold from ourselves. Why is self-care so hard for Christians to embrace? Perhaps it starts with our view of God. Dr. Joe Gorman contends that God desires his children to live healthy, rested, and joyful lives. *Healthy. Happy. Holy.* addresses the whole of life, exploring the importance of seven practices that, when intentionally combined, become a routine Gorman calls soul care. These practices are a means of grace to us as we learn to enjoy the life God intends.

Have you ever felt stuck in a relationship that seemed to be going nowhere? Wished you could get closer to your children? Or wondered why some people push your buttons? We often don't realize that we influence and unconsciously dictate how others respond to us. But, if we understand the basic drivers behind human interactions-- the need to increase intimacy and the need to reduce anxiety -- we can unlock the secrets of our relationships with family members, spouses, children, or coworkers. In this groundbreaking book, Dr. Clinton McLemore -- a leading expert on interpersonal relationships -- gives you a powerful roadmap for promoting healthy and productive relationships. *"Toxic Relationships"* draws extensively from psychological research and Christian theology and is filled with practical strategies you can use to create better communication at home and at work. You will learn how to increase appreciation, tenderness, respect, comfort, and understanding in all of your relationships by recognizing the eight basic "default styles" that most of us use to respond to others. By using biblical examples, Dr. McLemore shows how we can change our own destructive behavior and influence the behavior of others by understanding these eight toxic strategies: Controlling Drifting Intruding Freeloading Humiliating Scurrying Victimized Avoiding Create loving and healthy relationships
