To sum up what I have written to those who have received the call of God is to launch out in faith and follow the Lord Jesus Christ regardless of the cost or where the Lord may lead on to go. The book speaks of dedication, separation, and determination to follow it to the end, regardless of how long it may take. It also speaks of sacrifices, which one will have to make along with his family, for they are in there as well. The family may not understand some of the moves that will have to be made. The book also calls for patience for the one whom the Lord has called into His service. To deny one's family of the comforts which they once enjoyed is not easy. Decisions will have to be made as well, and many times, one's family will not understand why these moves are necessary. Those who are endeavoring upon this journey should sit down and count the cost before he begins. The price that the Lord requires is a lifetime of discipline and obedience.

Discusses the details of planning and organizing a campaign, recruiting staff and volunteers, and making effective use of literature, mailing lists, newspapers, radio, and TV

The best candidate doesn't always win an election, but the best campaign does. Winning an election at the local level doesn't involve ideology or issues. It is won by the personality and hard work of the candidate meeting people directly and chatting with them in ways which don't convey the traditional politician. The Politics Guy Campaign Tips - How to Win a Local Election is must reading for any candidate or campaign manager for local offices like State Legislature, City Council, School Board or County Commission. This book does not discuss views or political philosophy. This book discusses the daily street-level effort to win a local election. The techniques can be used by Republicans, Democrats or independents.

Revised and updated, this is the most practical, most detailed handbook ever published on the techniques and approaches you need to run a successful campaign for any local office.

Is your church facing a period of change? Are you overwhelmed with too much to do? Or are you searching for a new vision? If you are looking to take your church in a new direction, then How to Develop Your Local Church can help you decide which path to follow. Written by an experienced practitioner, it will help you to understand your congregation better: how it operates, what its members take for granted, what their priorities are and what the 'character' of the congregation is. The book then explains some of the reasons for frustration and conflict in church life, and points to positive ways forward, giving guidance on planning and decision-making. Just as no two churches are the same, there is no 'one-size-fits-all' answer to how your church might develop. Rather, it is only by drawing upon the collective wisdom of the local congregation that worthwhile change will begin to happen.

The reader is then introduced to other information sources, including public relations and information bureaux, societies and institutions, books and documents, periodicals, manuscripts and records, and audiovisual sources. Sources of information on local government in Scotland are also considered, including yearbooks. Finally, published literature on comparative local government is evaluated. This guide will be a useful resource for political scientists, politicians, and local government officials as well as the general public interested in local government.

If you were a Londoner visiting Cornwall would you know how to recognise a grammersow? If you were from the West Country and took a trip up to Scotland, would you be bewildered if someone described you as crabbit? And what if you left your native Belfast for Liverpool, would you understand if someone called you a woollyback? How to Talk Like a Local is an entertaining guide that gathers together and explains hundreds of words that you would never find in an ordinary dictionary. From dardledumdue, which means day-dreamer in East Anglia, through forkin robbins, the Yorkshire term for earwigs, to clemt, a Lancashire word that means hungry, it covers the enormously rich variety of regional words that pepper the English language. Not only does it pick out unique and unusual local words, it also draws together the dozens of terms from all over the country that mean the same thing, such as knee-knabbed, crab-ankled and hurked-up for knock-kneed, and obzocky, butters and maftin for ugly. In addition, it digs down to uncover the origins of these words, tracing their routes in to the language. Many terms meaning left-handed, for example, are related to the Kerr family of Ferniehirst Castle in Scotland, who preferred left-handed warriors. And many seemingly new coinages have been around for centuries, such as chav, which derives from a Romany word meaning child, or scouse, which probably comes from lapskaus, a Norwegian word for a sailors' stew. If you're intrigued by these colourful words and phrases, if you're interested in how English is really spoken, or if you want to discover how our language has evolved over the years, How to Talk Like a Local will prove irresistible - and enlightening - reading.

Local Money shows how local currency can help us unleash the financial power of our communities to build a resilient, low-carbon future. In past recessions and depressions, a popular response from communities has been to create their own forms of money. The jobs aren't there, and the money has dried up, but needs remain. How can local money help communities in times of hardship and cut as much carbon out of their economies as possible? An inspiring and practical new book, Local Money helps you understand what money is and what makes good and bad money. It draws on the considerable track record of experimentation with local money around the world and gives ideas to those in the Transition movement and beyond about what has been tried, what works, and what to avoid. Different models of alternative currencies are reviewed, from the Local Exchange Trading System (LETS) and Timebanks that work within communities, to paper currencies such as Berkshares, German regional currencies and Ithaca 'hours' that circulate among local businesses as an alternative to their losing trade to the big-box retailers. How can local banks and bonds help us move our cities, communities and homes on to a more sustainable footing? The book suggests how local groups can create money that can deepen resilience and support the development of things we need, such as food and power, while also reducing a community's CO2 emissions.
