Review For The Illinois
Interstate Testing System

This design research effort implemented a series of intervention activities designed to support a small group of elementary school principals improve their instructional leadership practices. The purpose of this research was to improve the skills of principals to lead instructional improvements identified through classroom observations, work with their school-level Instructional Leadership Team (ILT) to create teacher professional development that addresses the instructional improvement, and implement the leadership moves necessary for leading instructional change in their context. A sample of three

File Type PDF Ilts Principal As Instructional Leader 195

principals with more than 3-years principal experience and those who were participating in the Balanced Literacy Cohort were asked to participate in this design challenge. Principals participated in the Instructional Rounds (IR) process over a 6-week span, received pre-training, participated in three IR sessions to collect base-line data on their Problem of Practice, identified and designed a Next-Level Work Plan, collaboratively implemented teacher professional development with their Instructional Leadership Teams (ILTs), and reflected on their progress. Data were obtained from principals and from teachers on the Instructional Leadership Teams (ILTs) to provide a description of how

File Type PDF Ilts Principal As Instructional Leader 195

principal instructional leadership behaviors fared while participating in Instructional Rounds and how this process shaped professional learning. Participants completed pre and post surveys, interviews, IR sessions, and created teacher professional development plans. These data were analyzed against an instructional leadership rubric and evaluated how the Instructional Rounds process shaped instructional leadership behaviors in participating principals.

Not just another book on leadership teams For school teams to succeed, they need leadership, independence, meaningful collaboration, and a

File Type PDF Ilts Principal As Instructional Leader 195

shared conviction that they have real power to enact actual change. Educators know this, but they often lack an inquiry process that creates a community of learning leaders that is capable of deep collective impact on student learning and wellbeing. In this research-based, hands-on guidebook, school leadership coach Peter DeWitt introduces eight key drivers to integrating teacher and leader efficacy (mindset, well-being, context beliefs, working conditions, professional learning, organizational commitment, skills, and confidence) and harnesses it with a process to help you focus on the nuances of instruction and teaming to develop powerful collective leader efficacy. Readers

File Type PDF Ilts Principal As Instructional Leader 195

will find: Activities and strategies designed to build collective efficacy in instructional teams and foster leadership and interdependence among teachers
Theories of action to focus team efforts and how to create your own Tools, reflection prompts, and guiding questions to help you define your desired outcomes and the steps necessary to get there
With this book and the research within it, your instructional leadership team will develop a learner's mindset, a collective commitment to improvement, and a shared process for inquiry and continual growth so you can nurture greater impact together.
