International Business Transactions provides a basic introduction to international economic relations as well as to cross-border transactions in goods and services. The book covers both international trade and international business transactions materials and can be used for a course covering either or both topics. The book includes numerous individual and collaborative exercises so that students can "learn by doing" with respect to everything from trade negotiations to contract drafting. International Business Transactions is divided into four parts. The first three parts (Chapters 1-12) take students from the big picture concepts of international trade and monetary relations, through institutional arrangements such as the World Trade Organization and the North American Free Trade Agreement, and then on to trade

practice including import and export regulations and trade remedies such as antidumping and countervailing duties. The fourth part of the book (Chapters 13-16) focuses on transactional practice, including international sale of goods transactions, letters of credit, and a number of other arrangements such as distributorships and franchises that are commonly used in international business. International Business Transactions provides students with an opportunity to debate the merits of globalization, classify a good under the Harmonized Tariff System, and draft a clause to ensure that a foreign agent complies with the Foreign Corrupt Practices Act, all in the same class. This book is part of the Context and Practice Series, edited by Michael Hunter Schwartz, Professor of Law and Dean of the University of Arkansas at Little Rock Bowen School of Law.

International Business Transactions is a concise overview of the legal and financial topics that every business manager needs to know. The book explains the how and why of legal principles in international transactions. It breaks down these legal principles and translates them into business friendly language. It provides the reader with the ability to identify vulnerabilities in their business, and it effectively communicates the risks involved. In addition, the book is organized in an easy-to-follow table of contents that helps to find the exact information when needed. International Business Transactions gathers experts from many fields who bring firsthand knowledge and insights into practice, in such areas as: dispute resolution, employment law, foreign investment in Russia, international crimes, international tax, mergers and acquisitions, and much more.

This book outlines features of international business transactions, and discusses their various associated risks. For the successful completion of an international business transaction, depending on its terms, both parties need access to funds. This text deals with financing mechanisms mainly in the international sale of goods and in overseas construction projects. Concerning financing international sale of goods, it discusses export working capital financing, documentary credit, negotiation of bills of exchange, export factoring, and international forfaiting. Concerning financing an overseas construction project, this book discusses supplier and buyer credit, project finance, syndicated loans, and independent guarantees (or standby letters of credit). The book also covers export credit insurance (or export credit guarantee), which is very useful for the facilitation of financing in the international sale of goods and in overseas construction projects.
