Micro-Hydro Design Manual has grown from Intermediate Technology's field experiences with micro-hydro installations and covers operation and maintenance, commissioning, electrical power, induction generators, electronic controllers, management, and energy surveys. There is an increasing need in many countries for power supplies to rural areas, partly to support industries, and partly to provide illumination at night. Government authorities are faced with the very high costs of extending electricity grids. Often micro-hydro provides an economic alternative to the grid. This is because independent micro-hydro schemes save on the cost of grid transmission lines, and because grid extension schemes often have very expensive equipment and staff costs. In contrast, micro-hydro

schemes can be designed and built by local staff and smaller organizations following less strict regulations and using 'off-the-shelf' components or locally made machinery.

Kawasaki Z1, Z/KZ900 & Z/KZ1000 is for all owners and enthusiasts of the legendary Kawasaki Z1 900, Z/KZ900 and Z1000 built between 1972 and 1980. The book covers the complete restoration of a 1976 KZ900, from the sourcing of the bike to its completion as a fully restored machine. Every area is covered starting with advice on the different models, spares availability, and where best to source a bike to restore. Every area of the restoration is then covered in full detail including the engine, frame, gearbox, wheels, suspension and forks, brakes, ancillaries, bodywork and electrics, accompanied by hundreds of clear color photos to

illustrate the text. Additional work on a 1974 Z1A model adds complementary information. What really sets this manual apart, however, is the style in which it is written: not as some dull and distant workshop manual but in a friendly, humorous manner by an enthusiast of many years who is able to involve and entertain the reader, as well as guiding them through the restoration process.

This is the third restoration guide from Chris Rooke, whose previous works have been a massive hit with mechanics, enthusiasts and restorers throughout the world.

Classic Writings for a Phenomenology of Practice features examples of newly translated classic phenomenological texts that have been largely forgotten or misunderstood. The writings are unique in that they speak to the practice of doing phenomenological research for

the purpose of gaining insights and better understandings regarding aspects of professional practice and ordinary life phenomena and events. Phenomenology does not have to be impenetrable philosophy, dealing with tedious technical issues. Instead, phenomenology may offer relevance, value, and enduring allure to readers and researchers who are engaged with the quotidian life experiences and events of students, patients, clients, friends, and other individuals. This phenomenological approach aims to stay as close as possible to the ordinary events of everyday life: seeing the first smile of a child, feeling compulsive, being humorous, having a conversation, experiencing childhood secrecy, encountering new things—topics that span a manifold of life experiences. In this collection of classic phenomenological writings, each author is thoughtfully introduced, and each text is followed by a

conversational descant: a reflection on the phenomenological reflection. The presentation of these classic writings and their reflections aims to show us what it means to do phenomenology directly on the phenomena that we live—thus asking us to be attentive to the fascinating varieties and subtleties of primal lived experiences and consciousness in all its remarkable complexities. This book is relevant for scholars and students who are interested in human science research and the origins and practices of the phenomenological method.

Here is a story about a brave football... However, all the pictures are gone. None on the cover, and none here on the back. Except my picture... but who really wants to know what the author looks like? Can you figure out why the pictures are gone?
