This book presents the papers from the latest conference in this successful series on fuel injection systems for internal combustion engines. It is vital for the automotive industry to continue to meet the demands of the modern environmental agenda. In order to excel, manufacturers must research and develop fuel systems that guarantee the best engine performance, ensuring minimal emissions and maximum profit. The papers from this unique conference focus on the latest technology for state-of-the-art system design, characterisation, measurement, and modelling, addressing all technological aspects of diesel and gasoline fuel injection systems. Topics range from fundamental fuel spray theory, component design, to effects on engine performance, fuel economy and emissions. Hardworking Hayate has a plan to pay back the yakuza—who are now the legal owners of his body parts: he'll kidnap someone and ransom them for a mountain of money! But things get tricky when his would-be kidnappee—who as luck would have it is the daughter of a mind-bogglingly wealthy family—mistakes Hayate's actions for a confession of love, and subsequently hires him to be her personal servant. At least his employment future is secure, or so he thinks... -- VIZ Media

"Emperor penguins often come together like a sports team. A tight huddle keeps them warm in their Antarctic homeland. Coping with the cold is a must for these birds. Their wings cannot fly them to milder climates. This children's title tells how emperor penguins manage life in the South Pole. This title includes: visuals that teach about animal group classification, photo labels, range maps and conservation status bars, size comparison diagrams, food chain information, and speed meters that show how slow or fast an ocean animal moves."
