two and a half millennia ago, Egyptian priests and Babylonians used it as a way to meet others and for the understanding of human psychology. Much of numerological knowledge, is also attributed to the teacher-philosopher Pythagoras, who is said, before accepting a student in his school, examined it by name and date of birth. This manual numerology allows us to know the meaning of each number and, in particular: Numerological divination The Pythagorean Numerology The Masters numbers and karmic numbers Numerology Classical The date of Birth The Path of Birth The number of the Soul The number of person The Number of I The number of Quintessence The life cycles The Pinnacles and Challenges The Personal Numbers The lucky number The lucky date The first letter of the name The day of birth The Shadow numbers

For the first time, a Tantric scholar and expert in the Hindu traditions of Ayurveda and astrology presents a system of numerology that combines numerical calculations, astrological data, and an analysis of body type. He illustrates the Vedic Square and the visual patterns that can be derived from it, casting a revealing light on the more esoteric interpretations of numbers and their relationship to one another. Recommendations are given regarding strong and weak periods of day or year, favorable colors and precious stones to be worn, and meditations and mantras to be practiced for health and prosperity. Explains how to determine the psychic number, name number, and destiny number; how these numbers relate to each of the nine planets, and how they apply to every aspect of life--including personality, temperament, intelligence, talents, sexuality, spirituality, finances, travel, and health.
