ReligionLes RunesArt Of ManlinessOld NorseNorse VikingsAsatruNorse MythologyBook Of ShadowsGods And Goddesses. In Norse mythology, Yggdrasil is an immense tree that is central in Norse cosmology; the world tree, and around the tree existed nine worlds. #odin, #Mythology, #pagan.

The first book to offer an extensive presentation of Rune concepts, mythology and magical applications inspired by Dutch/Frisian traditional lore. Includes a clear and concise explanation of the runes and their placement and significance in the runic alphabet. Introduces the use of runes in counseling and healing of others.

Explores the Norse system of runes, known as Futhark, explaining the meanings of each rune, offering methods of interpretation, and discussing some of the feminine mysteries of the Norse pantheon

Discover how magic--real magic--can change your life with "The Truth About Ritual Magic" by Donald Tyson. Magic is real. It can give you inner peace and self-confidence, personal magnetism, the power to attain your goals, and a true understanding of your self and your place in the universe." "This book is your gateway to understanding a powerful and once-secret art: --Discover what you can expect from ritual magic--and what not to expect --Find out how ritual magic can change your physical, emotional, mental, and spiritual being through opening a channel to your Higher Self --Explore the use of song, chants, dance, and special postures and breathing in ritual magic --Learn about the basic instruments of ritual magic: altar, magic circle, lamp, elemental symbols, robe, wand, sword, athame, and ring --Practice a simple ritual to awaken your magical perception of the world --Awaken your magical perception As a creative, potent force, magic has been an important part of human civilization for millennia. The power to shape the world still lies within each of us. "The Truth About Ritual Magic" is your key to deciphering the mystery of ritual magic--and your own latent magical powers.

• Explores the five periods of runic revival: the Renaissance, the Enlightenment, the Romantic period, the early 20th century, and the late 20th century • Examines the use of runes by the foremost magicians and scholars of each era, including mystic and scholar Johannes Bureus, who developed his own integrated system of runology known as Adalruna • Reveals how the Nazi misguided use of the runes showed a lack of comprehension of what was being discovered by scientific rune scholars of the day In this exploration of the history of the runes from 1500 CE to the present day, Stephen Edred Flowers examines the five periods of runic revival: the Renaissance, the Enlightenment, the Romantic period, the early 20th century, and the late 20th century. For each period, he discusses both the scholarly studies and those focused on the esoteric mysteries of the runes--and how these two branches of study were at first intertwined yet diverged in later revivals. Focusing in particular on the first runic revival, Flowers examines the use of runes during the Renaissance by the foremost magicians and scholars of the era, including mystic and scholar Johannes Bureus, the "grandfather of integral runology," who developed his own system known as Adalruna. In his examination of the runic reawakenings of the early and late 20th century, Flowers looks at how the runes were employed as part of a reassessment of Germanic identity, one school of which led to Nazi Germany. He explains how the Nazi use and abuse of the runes was misguided and revealed a lack of comprehension of what earlier rune scholars had discovered through their extensive studies of the past. He also offers a fresh look at the work of Guido von List and clears him of his guilt by association with the Nazis. Detailing the multilayered history of the runes, the author reveals the integrated way the predecessors of today's rune workers thought and conceived of the runes, highlighting how their discoveries helped shape modern magical practices and scholarly studies. He calls for a return of integral runology as was practiced during the Renaissance and before. By reuniting the two branches of runic study, blending the scientific with the magical, we make way for new discoveries in runology and a chance for a full-scale reawakening of integrated runic knowledge.

This wide-ranging book explores the diversity of esoteric and occult beliefs. Neo-Paganism is one of the fastest-growing new religions in the western world where witchcraft or Wicca, Druidry, and Urban Shamanism are thriving. Alongside this there has been an upsurge in New Age ideas of an even wider variety, including astrology, Tarot, numerology, and many others. And then there are members of various schools of occult science, practising High Magic. Why this new interest in old beliefs? Why are millions of educated people today abandoning both the established religion of their parents and 21st century scientific rationalism and turning to magic and esoteric teachings? In their search for spirituality those who follow these paths claim to be applying ancient wisdom to the modern world. The Brief History of Secret Religions, a companion book to The Brief History of Secret Societies, looks at the history and variety of these esoteric movements, where they came from and what they tell us about the world today. Praise for The New Believers: 'an excellent guide to fringe religions that juxtaposes "respectable" movements and those conventionally dismissed as cults.' The Telegraph. 'no-nonsense, comprehensive survey packed with non-judgmental information about the beliefs, aims and activities of such movements. Daily Mail.

Is the Germanic god Wotan (Odin) really an archaic archetype of the Spirit? Was the Third Reich at first a collective individuation process? After Friedrich Nietzsche heralded the "death of God," might the divine have been reborn as a collective form of self-redemption on German soil and in the Germanic soul? In Jung's Wandering Archetype Carrie Dohé presents a study of Jung's writings on Germanic psychology from 1912 onwards, exploring the links between his views on religion and race and providing his perspective on the answers to these questions. Dohé demonstrates how Jung's view of Wotan as an archetype of the collective Germanic psyche was created from a combination of an ancient discourse on the Germanic barbarian and modern theories of primitive religion, and how he further employed völkisch ideology and various colonialist discourses to contrast hypothesized Germanic, Jewish and 'primitive' psychologies. He saw Germanic psychology as dangerous yet vital, promising rebirth and rejuvenation, and compared Wotan to the Pentecostal Spirit, suggesting that the Germanic psyche contained the necessary tension to birth a new collective psycho-spiritual attitude. In racializing his religiously-inflected psychological theory, Jung combined religious and scientific discourses in a particularly seductive way, masterfully weaving together the objective language of science with the external language of myth. Dohé concludes the book by examining the use of these ideas in modern Germanic religion, in which members claim that religion is a matter of race. This in-depth study of Jung's views on psychology, race and spirituality will be fascinating reading for all academics and students of Jungian and post-Jungian studies, religious studies and the history of religion.

Seven o'clock on a Monday morning, five hundred years after the end of the world, and goblins had been at the cellar again. . . . Not that anyone would admit it was goblins. In Maddy Smith's world, order rules. Chaos, old gods, fairies, goblins, magic, glours--all of these were supposedly vanquished centuries ago. But Maddy knows that a small bit of magic has survived. The "ruinmark" she was born with on her palm proves it--and makes the other villagers fearful that she is a witch (though helpful in dealing with the goblins-in-the-cellar problem). But the mysterious traveler One-Eye sees Maddy's mark not as a defect, but as a destiny. And Maddy will need every scrap of forbidden magic One-Eye can teach her if she is to survive that destiny.

The Spiritual Path of Rune Magic is unlocked in this book. For centuries the Northern Tradition has illuminated the way for many seekers. Based on her initiations into the powers behind the Runes, Freya Aswynn opens the path for those seeking to start their spiritual journey. "Principles and Powers of Runes" comprehensively covers the history and development of the Runes. The runes are much more than a simple device for making predictions, but are also a powerful tool for magic and self-development. Aswyn reveals how to understand each Rune sign and comprehend its spiritual and mythic background. She shows how to use the runes to find your life destiny, unlock your latent psychic powers and to heal. "Principles and Power of Runes" provides what a beginner needs to know to tread this path, while at the same time giving much needed and previously unavailable information for experienced practitioners.

"Runic Palmistry" combines standard palmistry, Norse mythology, and the runes, using all three to understand a person and his or her path, personality, needs and special gifts.

Reveals the ancient oracle based on the runic Elder Futhark alphabet of the Norse.
