hope and humor—has the alibi that can set Jivan free, but it will cost her everything she holds dear. Taut, symphonic, propulsive, and riveting from its opening lines, *A Burning* has the force of an epic while being so masterfully compressed it can be read in a single sitting. Majumdar writes with dazzling assurance at a breakneck pace on complex themes that read here as the components of a thriller: class, fate, corruption, justice, and what it feels like to face profound obstacles and yet nurture big dreams in a country spinning toward extremism. An extraordinary debut.

Many people believe in God and believe that God is everywhere, but they have yet to experience his presence. What did it mean for Moses to encounter God at the burning bush? How did it change his life and his perception of God? What is keeping you from experiencing his presence in your life? It was in that burning bush experience that Moses began to understand and appreciate the sacredness of worship. Through this book, Tozer teaches how proper worship has to be equal to the one we are worshiping, so if we are worshiping God, we must do it on his terms. This means having a spirit of reverence and holiness--like Moses taking off his shoes and kneeling before him. The bush's fire did not frighten Moses, but rather it poured the essence of

sacredness into his life, giving him an experience he had never had before. Let this book teach you how, like Moses, to kneel and worship before God's holy fire.

Twenty-year-old Skyler saw the incident out her window: Some sort of metallic object hovering over the Golden Gate Bridge just before it collapsed and a mushroom cloud lifted above the city. Like everyone, she ran, but she couldn't outrun the radiation, with her last thoughts being of her beloved baby brother, Dorian, safe in her distant family home. Flash forward to a post-incident America, where the country has been broken up into territories and Muslims have been herded onto the old Indian reservations in the west, even though no one has determined who set off the

explosion that destroyed San Francisco. Twelve-year old Dorian dreams about killing Muslims and about his sister—even though Dorian's parents insist Skyler never existed. Are they still shell-shocked, trying to put the past behind them . . . or is something more sinister going on? Meanwhile, across the street, Dorian's neighbor adopts a Muslim orphan from the territories. It will set off a series of increasingly terrifying incidents that will lead to either tragedy or redemption for Dorian, as he struggles to prove that his sister existed—and was killed by a terrorist attack. Not on Fire, but Burning is unlike anything you're read before—not exactly a thriller, not exactly sci-fi, not exactly speculative fiction, but rather a brilliant and absorbing adventure into the dark heart of an America that seems
