This topical Research Handbook examines the legal intersections of climate change, oceans and coasts across multiple scales and sectors, covering different geographies and regions. With expert contributions from Europe, Australasia, the Pacific, North America and Asia, it includes insightful chapters on issues ranging across the impacts of climate change on marine and coastal environments. It assesses institutional responses to climate change in ocean and marine governance regimes, adaptation to climate impacts on ocean and coastal systems and communities, and climate change mitigation in marine and coastal environments. Through a plurality of voices, disciplinary and

The Astrophotography Manual, Second Edition is for photographers ready to move beyond standard SLR cameras and editing software to create beautiful images of nebulas, galaxies, clusters, and the stars. Beginning with a brief astronomy primer, this book takes readers through the full astrophotography process, from choosing and using equipment to image capture, calibration, and processing. This combination of technical background and hands-on approach brings the science down to earth, with practical methods to ensure success. This second edition now includes: Over 170 pages of new content within 22 new chapters, with 600 full-color illustrations. Covers a wide range of hardware, including mobile devices, remote control and new technologies. Further insights into leading software, including automation, Sequence Generator Pro and PixInsight Ground-breaking practical chapters on hardware and software as well as alternative astrophotography pursuits

This custom companion to the blockbuster National Geographic Channel series Doomsday Preppers is filled with how-to illustrations, "Prepper Profiles" of people in the show, and survival tips from preppers themselves. Handy and comprehensive, the manual offers valuable life-saving information to help prepare for the most devastating calamities. Episodes of this highly original show, which debuted in February 2012, explore the lives of otherwise
