"Provides hands-on samples of forms, policies, and procedures that can be easily customized, reproduced, and implemented in a medical practice. The manual is designed for all medical practices, regardless of organizational size, type, or specialty mix and provides practical tools that all providers, administrators, supervisors, and staff can use"--Provided by publisher.

This popular bestseller is an easy-to-use manual complete with customizable medical office policies. Covering more than 100 of today's most pressing events, this manual helps practice administrators and managers set procedures and policies for managing operational, financial, and risk issues, as well as personnel, disaster planning, and exposure control.

The Credentialing Handbook provides comprehensive, plain-English guidance to understand and master the provider credentialing process in any health care setting. With sample forms, checklists, flowcharts, and correspondence, this practical guide walks you through every aspect of effective credentialing, appointment, and recredentialing. You'll learn: key steps in the credentialing process; about express credentialing models; how to credential allied health practitioners; typical time frames and tracking systems; pros and cons of delegating credentialing, plus more.

Build confidence, improve understanding, and prepare for professional growth and success! Each question includes the answer and a concise explanation for all correct responses.

This manual helps medium and large law firms increase productivity by providing a model manual for law office policies and procedures. The book, an updated and expanded version of the previous (fourth) edition, is divided into seventeen sections, covering such topics as law office organization, management, and administration, support personnel, office policies, personnel policies and benefits, office security and emergency procedures, financial management, file systems, technology, and communications systems. The book contains numerous sample forms and documents, as well as extensive bibliographies. A CD containing the entire text of the manual is included, allowing customization of the manual for particular user needs.

This text is designed to meet the needs of students in medical assisting who are studying the administrative portion of the curriculum, as well as students in transcription, coding, and related programs. This competency-based textbook provides a wealth of guidance for administrative skills. The text covers the "front office" topics: scheduling, billing, coding, bookkeeping, office management, and insurance issues. Helpful pedagogy, including Key Terms, a Glossary, and Critical Thinking Challenges familiarize students with the material and help with problem-solving. The ancillary package includes an Instructor ' s Resource Kit with an Instructor ' s Manual and Resource CD-ROM, as well as a student study guide.
