When the war ended on August 15,

Access Free Mitsubishi Diesel Engine

1945, I was a naval engineering cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobilized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the American occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of American military motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that magnificent parade of military

vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in Nikkei Sangyo Shimbun (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the Topeka Capital-Journal and the September 13, 1983 issue of the Asian Wall Street Journal. The Topeka Capital-Journal headline read, "MacArthur's Jeeps Were the Toyota Catalyst.

Military Vehicles is a comprehensive guide to the world of military mobility in the twentieth century and beyond. In 300 detailed entries, it explores the combat, transport and utility vehicles which have supported military units from WWI to present day. Categories included armored personnel carriers, armored cars, anti-aircraft vehicles, tank destroyers, trucks and transporters, amphibious vehicles, self propelled artillery and more. Military Vehicles covers the development of these powerful weapons of war, from early iron-clad monsters such as the German Bussing A5P and the Russian Garford-Putilow armored cars to advanced machines such as the Italian MICV Dardo and the German LGS Fennek reconnaissance vehicle. Each
