Kenneth Waltz's 1979 Theory of International Politics is credited with bringing about a "scientific
revolution" in the study of international relations - bringing the field into a new era of systematic study.
The book is also a lesson in reasoning carefully and critically. Good reasoning is exemplified by

arguments that move systematically, through carefully organised stages, taking into account opposing stances and ideas as they move towards a logical conclusion. Theory of International Politics might be a textbook example of how to go about structuring an argument in this way to produce a watertight case for a particular point of view. Waltz's book begins by testing and critiquing earlier theories of international relations, showing their strengths and weaknesses, before moving on to argue for his own stance – what has since become known as "neorealism". His aim was "to construct a theory of international politics that remedies the defects of present theories." And this is precisely what he did; by showing the shortcomings of the prevalent theories of international relations, Waltz was then able to import insights from sociology to create a more comprehensive and realistic theory that took full account of the strengths of old schemas while also remedying their weaknesses – reasoning out a new theory in the process.

This business book is different. Unlike every other book you'll read with titles like "How To Craft The Perfect Business Plan in 89 Incredibly Simple Steps", this book is different. It's a simple "How To" guide for creating a Business Plan that's right for you and your business and also an easy to follow workbook. The workbook will guide you through the process you need to follow. It tells you the questions that you need to consider, the numbers you need (and how to get them), and supporting documents you need to gather. The main purpose of a business plan is to aid YOU in running YOUR

business. So the workbook has been designed for you to write the information in and refer back to as needed. If you need to supply your Business Plan to another party, such as a bank if you're looking for finance, then it's simple to type up the various sections for a professional document. Running your own business is both a challenging and daunting prospect. With a well-thought-out business plan in place (anticipating the challenges you'll face AND the solutions) it will be much less daunting and much more exciting. Good luck! Molly

The old street, keeping its New England Sabbath afternoon so decently under its majestic elms, was as goodly an example of its sort as the late seventies of the century just gone could show. It lay along a north-and-south ridge, between a number of aged and unsmiling cottages, fronting on cinder sidewalks, and alternating irregularly with about as many larger homesteads that sat back in their well-shaded gardens with kindlier dignity and not so grim a self-assertion. Behind, on the west, these gardens dropped swiftly out of sight to a hidden brook, from the farther shore of which rose the great wooded hill whose shelter from the bitter northwest had invited the old Puritan founders to choose the spot for their farming village of one street, with a Byington and a Winslow for their first town officers. In front, eastward, the land declined gently for a half mile or so, covered, by modern prosperity, with a small, stanch town, and bordered by a pretty river winding among meadows of hay and grain. At the northern end, instead of this gentle decline, was a precipitous cliff side, close to whose brow a wooden bench, that ran half-way round a vast sidewalk tree, commanded a view of the valley embracing nearly three-quarters of the compass.

Oh, it's time to go to the dentist! Crocodile has a toothache, but he's afraid of the dentist. The dentist wants to help, but he's afraid of Crocodile. Never fear! Bestselling author-illustrator Taro Gomi cleverly and humorously presents both sides of the story, as the crocodile and the dentist learn to be brave and face their fears—of what might happen in that dentist's chair and of each other!
